The Waning Of Humaneness:

The Waning of Humaneness Konrad Lorenz, 1987 (Un)Learning to Be Human? Stefan Herbrechter, 2024-09-23 Critical posthumanism is a theory paradigm that has become hugely influential across the humanities and social sciences in the last twenty years This volume collects essays written over the last decade by one of the founders and leading figures of this movement Originally a reaction to accelerated technological and media change that challenges traditional notions of what it means to be human posthumanism as opposed to transhumanism has developed into a general critique and reappraisal of life after humanism and anthropocentrism The essays collected here are dealing with aspects of education technology politics media and art and share a focus on how to critique and unlearn traditional understandings of humanness and re learn what it means to be human differently **Liberation Philosophy: From the Buddha to Omar Khayyam** Mostafa Vaziri, 2019-09-30 The critical narrative of this interdisciplinary book offers a first time look at the interrelationship between biology mythology and philosophy in human development Its daring premise follows the trajectory of human thought starting with the biological roots of fear and the original need for religion truth seeking and myth making The narrative then innovatively links a number of maverick philosophical teachings over the centuries from pre Buddhist times to the Buddha from Epicurus and Pyrrho to Lucretius and eventually to the seminal poetry of Omar Khayyam These emergent philosophies exemplified liberation from the grasp of mythical and religious thinking and instead espoused an empirical and joyful mind The narrative concludes with a look at the emancipating philosophical movement that resulted in the European Enlightenment and it suggests that the philosophical teachings explored in the book may offer the potential for a second broader Enlightenment **Against Democracy and Equality** Tomislav Sunic, 2011 Dr Sunic examines the principal themes which have concerned the thinkers of the New Right since its inception by Alain de Benoist in 1968 and also discusses the significance of some of the older authors who have been particularly influential on the development of the movement including Oswald Spengler Carl Schmitt and Vilfredo Pareto *Catholicism* Richard P. McBrien, 2013-05-28 A new study edition of the classic that has sold over 150 000 copies *Dictionary for Psychotherapists* Richard D. Chessick, 1993 For experienced professionals and those in various stages of training Written in narrative form proceedings from abandonment neurosis to working through entries are plain spoken and tailored for clinical utility The text also functions as an overview of practical problems in psychotherapy and includes biographical profiles of many important theorists Book News *The Persistence of Racism in America* Thomas F. Powell, 1992 one of the most thorough attempts to explain why racism is still with us in these closing years of the twentieth century THE NEW ENGLAND REVIEW OF BOOKS *The Scientist* ,1986 Kirkus Children's and Young-adult Edition ,1986 New Growth Lyman Grant, 1989 *Decision and Structure* Mario A. Rivera, 1991-11-13 The 1980 Cuban influx represented a unique challenge to federal refugee policy mechanisms and to prevalent concepts of policy analysis and evaluation The persistence of unworkable policies across two Presidential

administrations suggests that organizational structural and decisional rather than personality or motivational factors were principally determinative of policy failure This work suggests elements of a causal theory based on these factors and a mode of normative evaluation based on mixed analytical strategies that attend to both decisional process and institutional structure

The Forbidden Body Shelley Bovey,1994 The author herself a size 24 exposes discrimination in all its forms and reveals that this is far more threatening to a woman s physical and mental health than the health risks associated with being fat She puts tough questions to Harley Street surgeons dieticians and others with a vested interest in women wanting to be thinner and talks to doctors who confess that prejudice not science makes them condemn fat women as unhealthy A Deeper Freedom Charles W. Anderson,2002-04-29 Today those who believe in liberal democracy must reexamine and reaffirm their commitments Here Charles Anderson probes our urgent concerns and questions Even those who believe that liberal democracy is the best form of government may think that liberal individualism leads to selfishness permissiveness and irresponsibility Many would teach a cultural or religious counter ethic to offset the excesses of freedom Grounding his view in classic philosophic and religious ideals Anderson argues that a deeper vision of individuality and freedom can lead to both a sound public philosophy and a worthy personal ethic In the same way that we as humans try to understand our place in nature and the cosmos Anderson seeks to understand how we as unique individuals can understand our place among our fellow humans Beginning with friendship and love he extends his inquiry to the relationships of teaching community work and democracy Anderson shows how the natural desire of free people to find meaning in relationships with one another can lead to depth and fullness both in private and public life Staff Paper ,1991 **Indian Literature** ,2005 **Challenges of Social Studies Instruction in Middle and High Schools** Margaret A. Laughlin,1995 **Philosophy East & West** ,1988 **Evolutionary Ethics and Moral Idealism** Kenneth N. Rabe,2002 *Library Journal* ,1987 Central European Political Science Review ,2002
