## **True Partnership:**

**True Partnership** Carl Zaiss,2002-02-17 We are all capable of producing more than we typically do The very nature of our relationships undermines individual and organizational effectiveness With this uncompromising statement author Carl Zaiss takes us on an inspiring journey that opens the door to unprecedented levels of individual and organizational performance Written for today s complex business arena and rapidly changing world True Partnership Revolutionary Thinking About Relating To Others presents an in depth look at this mind altering new perspective for moving beyond the issues and constraints we all face as individuals and groups It provides a provocative and spellbinding look at how what we take for granted actually sabotages our efforts at improving our own effectiveness and the productivity of the businesses institutions and organizations to which we belong True Partnership exposes the personal organizational and social costs of the drift The instinctive and taken for granted way of relating limits our effectiveness The book exposes the four mistaken beliefs that form the drift and keep us from building productive relationships seeing ourselves as separate and autonomous relating to others through power and control having an either or mentality and seeing the world as fixed and predetermined Without distinguishing these four characteristics of the drift they become our blind spot and sabotage any attempt at improving our effectiveness One of the common strategies for improving our ability to live and work together is to build a partnership It refers to a relationship between people with an emphasis on teamwork and collaboration Yet most of what we call partnership is not and most partnerships do not access what is really possible Due to the drift the underlying nature of our relationships our partnerships are often superficial and cosmetic True Partnership presents a new perspective a new context for our relationships generated by a fundamental shift in the way we as individuals see the world True partnership is a state of mind not a type of relationship It is a framework of relating to others that has an impact on each and every interaction The four principles of true partnership include seeing ourselves as interdependent parts of the whole connecting to others through communication operating from a both and mentality and relating to our world as observer created True Partnership provides access to highly effective relationships and extraordinary levels of performance This book challenges people to rethink their basic assumptions and adopt a revolutionary new mindset about their relationships and how they go about producing results at work and at home True Partnership is a powerful tool for anyone concerned about improving individual and organizational excellence
