author shows how peer mediation can be embraced by schools to strengthen student voice behaviour management active citizenship and inclusion as well as how it can be neglected and fail to achieve these aims Drawing on case studies of peer mediation in schools the book offers an analysis of the work that has been carried out in this area It revisits key debates in education such as citizenship social inclusion student voice and behaviour management in order to begin to address the questions surrounding this method of conflict resolution Peer Mediation is key reading for primary and secondary school teachers educational professionals academics policy makers and those with an interest in practical peace making *Rules and Regulations ...
