Conquering the Mouth of the Dragon Estralia L. Russelle,2001-04-09 We all know individuals who though seemingly nave

about the shrewd ways of the world ascend to the top of their professions and find peace and satisfaction in their personal lives. Admiring even envying such people, we wonder what makes their lives work. Can it be that they are tapped into an unseen power that guides them from within? *Conquering the Mouth of the Dragon* is an adventurous novel teeming with suspense, mystery, and intrigue. Based on actual events, the characters are drawn from real people who lived through situations much like those described in the book. Constance McKenna, a feng shui designer for a major corporation in San Francisco, travels to China to attend a seminar. Her odyssey begins the moment she leaves her house on her way to the airport; mysterious and frightening events follow at a rapid pace. Her faith in herself and her belief in the powers that guide her life are tested again and again as she travels through unfamiliar places. The cast of characters in *Conquering the Mouth of the Dragon* is as cryptic as the circumstances surrounding Constance's journey. None is more baffling than Lang DeBjorn, for whom Constance alternately feels suspicion and attraction. Reader, even those unfamiliar with metaphysics will easily identify with the feelings of fear and determination interspersed with hopelessness. It is a story of triumph over adversity, a story of success.

[The Tail of the Dragon](#) Elliot Field, 1937 *Games, Contests and Relays* Seward Charles Staley, 1924 **Tail of the Dragon** R.M. Singhose, 2017-06-23

Deep in the Great Smoky Mountains between Tennessee and North Carolina, there is a road that is a legend among motorcyclists. This road contains an eleven-mile stretch of some of the most incredible curves in the United States: three hundred eighteen curves, to be exact. Three hundred eighteen breathtaking, eyeball-bugging, white-knuckle hairpin curves. Of course, the best way to ride this road is at a fast pace, taking the curves on the wrong side, dodging the traffic coming to meet you. *Tail of the Dragon* is a true story of the author's journey on her Harley Davidson, riding alongside her husband from Oregon to the Great Smoky Mountains, finally encountering the infamous Tail of the Dragon. The fourth book in the series *Harley Woman Tales From The Open Road*, this is a fascinating memoir that will delight armchair travelers and motorcycle enthusiasts everywhere.

The Dragon of the Alchemists Frederick Carter, 1926

The dragon of the alchemists connects seemingly separate specializations of the Western Mystery Tradition, such as alchemy, astrology, pagan religion, and Hermetics. It is important to understand that Carter is not reducing the Dragon to a psychological concept, though it is difficult to discuss Mind without discussing psychology. Instead, in showing that this principle exists across all disciplines, he emphasizes it as an essential point of study, contemplation, and practice for all Occultists in the pursuit of the Great Work.
