Teaching Tolerance:

Starting Small Teaching Tolerance (Project), Southern Poverty Law Center, 1997 Reflection 14 New vision **Teaching Tolerance** Sara Bullard, 1997-08-18 Teaching Tolerance is an invitation to parents and teachers an invitation to examine their own habits and attitudes toward the community around them Sara Bullard believes that once a parent is aware of the attitudes they were raised with it is easier for them to teach their children true tolerance toward others The first chapters of Teaching Tolerance focus on the humanness of intolerance no one is truly exempt from the habit of judging others The fourth chapter outlines the work required to alter intolerant instincts The last four chapters walk parents through children s need for security self expression and moral guidance needs which if respectfully met will free them to be comfortable both with themselves and with people of different backgrounds Bullard concludes each chapter with questions and suggestions for journal writing to help parents further explore their own attitudes Also included is an extensive list of books toys games and music that explore ethnicity and promote tolerance Handbook of Prosocial Education Philip M. Brown, Michael W.

Corrigan, Ann Higgins-D'Alessandro, 2012-10-12 Handbook of Prosocial Education is the definitive theoretical practical and policy guide to the prosocial side of education the necessary second side of the educational coin Academic teaching and learning are the first side of education however academic success depends upon the structures and support of prosocial educational efforts from promoting positive school climate to fostering student and teacher development to civic literacy and responsible and critical citizenship participation The Handbook of Prosocial Education chapters written by highly respected researchers and outstanding educators represent the wide range of research based prosocial interventions from pre school through high school The chapters explore and explain how prosocial education helps teachers create effective classroom learning environments to support the development of the whole student principals encourage positive school climate and superintendents work to improve the health and well being of their systems As readers will learn when done well prosocial education develops the capacities and competencies of students teachers and school administrators that lead to a more autonomous positive self concept greater sense of purpose more socially responsible behaviors and increased connections between families schools and communities This book pulls together in one place for the first time the various threads that create the prosocial education tapestry making a compelling case for the necessity of changing national educational policy that continues to be ever more oriented to only the academic side of the educational coin thus jeopardizing the foundational and historic purpose of educating our children for their full human development and participation in our democracy
