The Art Of Falling Down:

The Art of Falling Down John Charles Evans, Columbia University. Writing Division, 2004 **The Art of Falling** Kim Moore, 2016-04-29 The poems of *The Art of Falling* are fearless. There are more good poems filling Kim Moore's first collection than many poets will produce in a lifetime. Alison Brackenbury: This accessibility in topic or theme is due not to their simplicity but Moore's deftness as a poet. Form and language collaborate to give her work an enviable ease, flooring the reader fast with adroit humour and drama, making the reading experience both nimble and jarring as we move from the lightness of a trumpet lesson to the darkness of endured abuse in a violent relationship. Moore's is an exciting and full first collection. Laura Tansley: Take a long deep breath when reaching for Kim Moore's first full collection *The Art of Falling* because you'll be tumbling with her from the first page onwards through her intoxicating verse. Matthew Stewart: Kim Moore's *The Art of Falling*. Seren was just a joy, a tough tender book packed with a variety of forms and emotional clout. This is one of those rare books that I feel I could give to any non-poetry reader with the aim of converting them to poetry's undeniable charms. Sarah Westcott: I find her approach, her language, her emotion, her intensity and her originality compelling. I try here to outline here a few of the reasons why I think it's particularly impressive. I do so not only because of my own enthusiasm for the book but because I think it represents the kind of poetry we all should be aiming to write. Noel Williams: Kim Moore in her lively debut poetry collection *The Art of Falling* sets out her stall in the opening poems firmly in the North amongst My People who swear without knowing they are swearing scaffolders and plasterers and shoemakers and carers. A Psalm for the Scaffolders is a hymn for her father's profession. The title poem riffs on the many sorts of falling so close to failing or to falter or to fill. The poet's voice is direct, rhythmic, compelling. These are poems that confront the reader, steeped in realism, they are not designed to soothe or beguile. They are not designed with careful overlays of irony and although frequently clever they are not pretentious but vigorously alive and often quite funny. In the first section there is a visit to a Hartley street spiritualist, a train trip from Barrow to Sheffield, a Tuesday at Wetherspoons. The author's experience as a peripatetic brass teacher sparks several poems. The lives of others also feature throughout including a quietly devastating central sequence *How I Abandoned My Body To His Keeping* is the story of a woman embroiled in a relationship marked by coercion and violence. These are close to the bone pieces, harrowing and exact. The final section includes beautifully imagined character portraits of John Lennon and Wallace Hartley the violinist on the Titanic as well as Jazz trumpeter Chet Baker and the poet Shelley and other poems on suffragettes, a tattoo inspired by Virginia Woolf's *A Room of One's Own* and a poetic letter addressed to a Dear Mr Gove.

 From the Preface The fact that so much of modern art has devoted itself to the exploration and assertion of its own identity is reflected in but does not explain the increasing amount of writing and talking on the part of contemporary artists Rather the whole history of the changing role of art and artists in a democratic industrial and technological society stands behind the spate of artists words and the public s hunger for them even some of the general public out there beyond art s little circle Statements by artists appeal somewhat the way drawings do they bring us or at least they hold the promise of bringing us closer to the artist s thoughts and feelings and to an understanding of his or her modus operandi they hold the keys to a mysterious realm And sometimes they offer us the sheer pleasure of good reading Such is the primary raison d etre of this book Its other motivation is educational and stems from the frustrating lack in teaching contemporary art of any single compilation of statements by American artists from 1940 to the present This anthology differs in several respects from those others that do include documents of American art since 1940 The selection I have made is devoted exclusively to statements of artists it is limited to the last four decades it presents in a single volume a representative and fairly comprehensive coverage of major developments in American art beginning with Abstract Expressionism and whenever possible it cites the first or among the very earliest documents signaling a shift in the definition intent or direction of art The Compleat Body of the Art Military ...
