*The Invisible Saint* Curtis Taylor,1990      **The Invisible Saint--Revisited** Curtis Taylor,2000      Caliphate Redefined Hüseyin Yılmaz,2019-11-05 How the Ottomans refashioned and legitimated their rule through mystical imageries of authority The medieval theory of the caliphate epitomized by the Abbasids 750 1258 was the construct of jurists who conceived it as a contractual leadership of the Muslim community in succession to the Prophet Muhammed s political authority In this book Hüseyin Yılmaz traces how a new conception of the caliphate emerged under the Ottomans who redefined the caliph as at once a ruler a spiritual guide and a lawmaker corresponding to the prophet s three natures Challenging conventional narratives that portray the Ottoman caliphate as a fading relic of medieval Islamic law Yılmaz offers a novel interpretation of authority sovereignty and imperial ideology by examining how Ottoman political discourse led to the mystification of Muslim political ideals and redefined the caliphate He illuminates how Ottoman Sufis reimagined the caliphate as a manifestation and extension of cosmic divine governance The Ottoman Empire arose in Western Anatolia and the Balkans where charismatic Sufi leaders were perceived to be God s deputies on earth Yılmaz traces how Ottoman rulers in alliance with an increasingly powerful Sufi establishment continuously refashioned and legitimated their rule through mystical imageries of authority and how the caliphate itself reemerged as a moral paradigm that shaped early modern Muslim empires A masterful work of scholarship *Caliphate Redefined* is the first comprehensive study of premodern Ottoman political thought to offer an extensive analysis of a wealth of previously unstudied texts in Arabic Persian and Ottoman Turkish      **Spirituality** Kees Waaijman,2002 This textbook is a systematic guide to the extensive field of spirituality Kees Waaijman charts the multiform phenomenon of spirituality the spirituality of ordinary people the great spiritual traditions and the force of counter movements From the foundation of this survey he answers questions like What exactly is spirituality What forms can a scholarly approach take Finally the book provides methodic access to the study of spirituality focusing on the following questions Which are the different forms of spirituality and how can we describe them How can spiritual texts be given a reliable reading Which themes can be distinguished in the field of spirituality and what would be a meaningful way to address them What do we mean by spiritual guidance and what can we learn from it This textbook has no equal It is indispensable to scholars wishing to study the subject but also to others who want to learn about spirituality      The Crossing of the Visible Jean-Luc Marion,2004 Ranging across artists from Raphael to Rothko Caravaggio to Pollock *The Crossing of the Visible* offers both a critique of contemporary accounts of the visual and a constructive alternative According to Marion the proper response to the nihilism of postmodernity is not iconoclasm but rather a radically iconic account of the visual and the arts which opens them to the invisible      **A Christian-Muslim Comparative Theology of Saints** Hans A. Harmakaputra,2022-09-19 In *A Christian Muslim Comparative Theology of Saints The Community of God s Friends* Hans A. Harmakaputra focuses on a question that emerges from today s multi faith context Is it possible for Christians to recognize

non Christians as saints To answer affirmatively he offers a Christian perspective on an inclusive theology of saints through the lens of comparative theology that is based on the thought of Catholic Protestant and Muslim theologians Karl Rahner Jean Luc Marion Elizabeth Johnson Dietrich Bonhoeffer Paul Tillich and Ibn Arab As a result of this interreligious comparison three theological constructs emerge 1 saints as manifestations and revealers of God s self communication 2 the hiddenness of saints and 3 saints as companions These theological constructs redefine and reconfigure Christian understanding of saints on one hand and on the other hand provide theological reasoning to include non Christians in the Christian notion of the communion of saints

**The Lives of the English Saints** John Henry Newman,1901 Believing in Order to See Jean-Luc Marion,2017-04-03 Faith and reason especially in Roman Catholic thought are less contradictory today than ever But does the supposed opposition even make sense to begin with One can lose faith but surely not because one gains in reason Some in fact lose faith when reason is not able to make sense of the experiences of our lives We very quickly realize that reason does not understand everything Immense areas remain incomprehensible and irrational which we abandon to belief and opinion Soon we definitively renounce thinking what that has been excluded from the realm of the thinkable Ideological nightmares arise from this slumber of reason Thus the separation between faith and reason too quickly taken as self evident and even natural is born from a lack of rationality an easy capitulation of reason before what is supposedly unthinkable Rather than lose faith through excessive rationality we often lose rationality because faith is too quickly excluded from the realm that it claims to open that of revelation We lose reason by losing faith Examining such topics as the role of the intellectual in the church the rationality of faith the infinite worth and incomprehensibility of the human the phenomenality of the sacraments and the phenomenological nature of miracles and of revelation more broadly this book spans the range of Marion s thought on Christianity Throughout he stresses that faith has its own rationality structured according to the logic of the gift that calls forth a response of love and devotion through kenotic abandon
