The Irish Constitution Darrell Figgis, 2019-12-20 In *The Irish Constitution* Darrell Figgis presents a profound exploration of the legal framework that underpins Irish governance. Written in a period marked by nationalistic fervor and the emergence of new political paradigms, Figgis adopts a clear yet sophisticated literary style, blending analytical rigor with a persuasive narrative. It puts the Irish constitution in a clear historical perspective and examines the political context of the beginnings of the constitution in 1930s Ireland. The Constitution of Ireland Oran Doyle, 2018-11-29 This book provides a contextual analysis of constitutional governance in Ireland It presents the 1937 Constitution as a seminal moment in an ongoing constitutional evolution rather than a foundational event The book demonstrates how the Irish constitutional order revolves around a bipartite separation of powers The Government is dominant but is legally constrained by the courts particularly in their interpretations of the fundamental rights protected by the Constitution In recent decades the courts have weakened the constitutional constraints on the Government Political constraints imposed by opposition parties in Parliament and new accountability institutions such as the Ombudsman have moderately strengthened but the Government remains by far the most powerful political actor There is a risk that such executive dominance could lead to democratic decay however the referendum requirement for constitutional amendment has prevented Governments from accumulating greater constitutional power The book begins with an overview of Irish constitutional history leading to the enactment of the 1937 Constitution before exploring the foundational decisions made by the Constitution in relation to territory people and citizenship Particular attention is paid to the constitutional relationship with Northern Ireland currently unsettled by the decision of the United Kingdom to leave the European Union The book details the key institutions of state Government Parliament President and courts before analysing how different constitutional actors exercise their respective powers of governance contestation and oversight A thematic approach is taken to the courts interpretation of fundamental rights showing how judicial attitudes have markedly changed over time Further attention is paid to both formal amendment and informal constitutional change The Constitution today is markedly different from 1937 it is non committal on national reunification less influenced by Roman Catholic natural law teaching and generally more permissive of Government action It is perhaps these developments however that explain its continued success or at least its longevity
