as a part of religious reconfiguration in Vietnam caused by intensified interactions among these spheres It explores changes of relationship between religions and changes between the religious sphere and the political economic and public spheres in contemporary Vietnam Specifically it traces trajectories of religious development in relation to politico economic changes in this rapidly modernising nation It tests a hypothesis that at least some new yet unrecognized new religious groups have a positive active role in modernisation rather than a negative reactive role To this end the book draws on a number of research approaches and methodologies in an effort to provide readers with a multi faceted understanding of Vietnam s new religious groups The research is interdisciplinary in orientation drawing on sociology and anthropology It is also comparative in that it bases its argument on a consideration of three distinct new religious groups in Vietnam The research is also qualitative and ethnographic in that it drew on some of the techniques associated with participant observation during a sustained period of fieldwork amongst the three religious groups The concept of religious reconfiguration developed in this book provides a framework for the study of religion in Vietnam which opens the way to further analysis from a comparative perspective Meanwhile an emphasis upon religious reinvention which addresses processes of remaking transforming legitimating and accommodating can be useful for research into New Religious Movements elsewhere in Asia A research in the challenges of new religions could act as a catalyst for interdisciplinary studies based on detailed empirical study of religious diversity and of religious freedom by other scholars It is hoped that this research might help to give a voice to religious minorities that are often the victim of stereotyping misunderstanding and punitive treatment The book is suitable for post graduate students and social researchers who are interested in religious revival religious diversification State religion relationships and State s regulation of new religions

The Jade Buddha, and Other Stories Dinar Beheram,1932* *Pure Land in the Making* Allison J. Truitt,2021-02-15 Contemplates the role of Buddhist temples in the nurturing of immigrant communities Since the 1970s tens of thousands of Vietnamese immigrants have settled in Louisiana Florida and other Gulf Coast states rebuilding lives that were upended by the wars in Indochina For many their faith has been an essential source of community and hope But how have their experiences as migrants influenced their religious practices and interpretations of Buddhist tenets And how has organized religion shaped their understanding of what it means to be Vietnamese in the United States This ethnographic study follows the monks and lay members of temples in the Gulf Coast region who practice Pure Land Buddhism which is prevalent in East Asia but in the United States is less familiar than forms such as Zen By treating the temple as a site to be made and remade Vietnamese Americans have developed approaches that sometimes contradict fundamental Buddhist principles of nonattachment This book considers the adaptation of Buddhist practices to fit American cultural contexts from temple fundraising drives to the rebranding of the Vu Lan festival as Vietnamese Mother s Day It also reveals the vital role these faith communities have played in helping Vietnamese Americans navigate challenges from racial discrimination to Hurricane Katrina
