

## **THE JOURNALISTS' PRAYER**

Almighty God,  
strengthen and direct, we pray,  
the will of all whose work it is to write  
what many read,  
and to speak where many listen.

May we be bold in confronting evil and injustice,  
and compassionate in our understanding  
of human weakness,  
rejecting alike the half-truth that deceives,  
and the slanted word that corrupts.

May the power that is ours, for good or ill,  
always be used with honesty and courage,  
with respect and integrity;  
so that when all here has been written,  
said, and done,  
we may, unashamed, meet Thee face to face,  
through Jesus Christ our Lord. Amen.

*Through a Lens Darkly* David M. Haskell,2009 Do journalists report more favourably on people that they like than on those they don't Canada's evangelicals think so For years they've accused the country's news personnel of being prejudiced against them both personally and in their coverage However up to now the evangelicals charge of media bias has never been empirically examined This book puts that charge to the test An in depth survey of national news personnel accompanied by an extensive multi year examination of news coverage reveals how Canada's journalists feel about evangelicals how they report on evangelicals and how and when their feelings influence their reporting In the end this book concludes when the beliefs and actions of Canadian evangelicals directly clash with the heart felt convictions of Canadian national journalists the journalists are willing to abandon their professional objectivity and slant their stories against their ideological opponents In addition this book uses the media's treatment of evangelicals as a backdrop for the discussion of larger issues How the media construct the news how and why the media cover religion as they do whether journalistic objectivity exists at all and the affect media messages have on audiences is explored Also advice on how religious groups can overcome media bias is offered As the first book to apply the tools of quantitative research to the topic of religion and the news in Canada this book is groundbreaking However written with the lay reader in mind the theoretical underpinnings of the work and methodologies used are presented in accessible easy to understand terms This book will be of interest to all member of the evangelical community clergy and faith leaders and scholars of religion or mass communication This is response rather than reaction Intelligent balanced incisive and instructive At last such a book about such a subject from someone who understands evangelical Christianity as well as media Essential reading for everyone interested in both Michael Coren Author columnist

**Rabbis, Reporters and the Public in the Digital Holyland** Yoel Cohen, 2023-12-21 Focused on the triangular relationship between rabbis journalists and the public this book analyses each group's role in influencing the agenda around religion in Israel The book draws upon the author's original research comprising an analysis of the coverage of religion on four Israeli news websites a series of surveys of rabbis journalists and the public as well as a large number of interviews conducted with a range of stakeholders community rabbis teacher rabbis and religious court judges reporters editors and spokespersons and the Israeli Jewish public Key questions include What are rabbis philosophical views of the media How does the media define news about Judaism What aspect of news about religion and spirituality interest the public How do spokespersons and rabbis influence the news agenda How is the triangular relationship between rabbis journalists and the public being altered by the digital age Despite a lack of understanding about mass media behaviour among many rabbis and concurrently a lack of knowledge about religion among many journalists it is argued that there is shared interest between the two groups both in support of mass media values like the right to know and freedom of expression It is further argued that the public's attitude to news about religion is significant in determining what journalists should publish The book will be of interest to those studying mass communications the media Judaism and Israeli society as well as researchers of media and religion
