## **The Man Of Confidence:**

The Confidence-Man Herman Melville, 2022-11-13 In *The Confidence Man* Herman Melville explores the themes of identity, trust, and deception within the framework of a philosophical narrative set on a Mississippi River steamboat. Written in 1857, this novel employs a satirical tone and a fragmented style, incorporating dialogues and encounters that reflect the socio-economic uncertainties of pre-Civil War America. The characters, predominantly disguised swindlers, embody various facets of human nature, challenging readers to discern authenticity in a world rife with impostures. Melville's exploration of confidence as currency parallels the emergent capitalist ethos, probing the moral landscape of an era teetering on the brink of transformation. Herman Melville, renowned for his later masterpiece *Moby Dick*, delves into psychological intricacies through this earlier work, influenced by his experiences at sea and encounters with diverse cultures and customs. The philosophical underpinnings of his narratives often compelled him to question societal norms, making *The Confidence Man* a critical lens on American individualism and morality. Melville's own struggles with public perception and artistic integrity resonate through the duplicitous interactions of his characters. Readers seeking a profound examination of human nature amidst social critique will find *The Confidence Man* both engaging and thought-provoking. The blend of humor and social commentary invites reflection on the nature of trust and self-deception in relationships. This novel not only enriches the understanding of Melville's oeuvre but also stands as a crucial text in American literature that echoes the perennial conflicts between idealism and reality.

The Comedian as Confidence Man Will Kaufman, 2019-10-09 In this lively and fascinating analysis of humorists and their work, Will Kaufman breaks new ground with his irony fatigue theory. In this lively and fascinating analysis of humorists and their work, Will Kaufman breaks new ground with his irony fatigue theory. *The Comedian as Confidence Man* examines the humorist's internal conflict between the social critic who demands to be taken seriously and the comedian who never can be the irony fatigue condition. Concentrating on eight American literary and performing comedians from the 18th, 19th, and 20th centuries, this study explores the irony fatigue affect that seems to pervade the work of comedians: those particular social observers who are obliged to promise "Only kidding, folks, even when they may not be." In G. B. Shaw's words, they must put things in such a way as to make people who would otherwise hang them believe they are joking. If these social observers are obliged to become, in effect, confidence men with irony as the satiric weapon that both attacks and diverts, then the implications are great for those social critics who, above all, wish to be heeded.
