**Virtues of Aging** Jimmy Carter, 1998-10 In this newest addition to the Library of Contemporary Thought former president and present activist Jimmy Carter explores the process of aging including his own and describes how one's later years just might prove to be the most thrilling of one's life **The Literary Legacy of Jimmy Carter** Mark I. West, Frye Gaillard, 2024-12-21 *The Literary Legacy of Jimmy Carter* brings together original essays about the thirty two books that President Jimmy Carter wrote over the course of his life Since Carter wrote most of these books after completing his term as president this collection sheds light on Carter's remarkable post presidency years **Re-Imagining the Church** Robert J. Suderman, 2016-09-30 *The church* What has it become What was it meant to be Does it pave the way or get in the way Are we suspicious of the institutionalization of church bureaucracy Or thrilled with the relevant impact of its presence Robert J. Suderman writes about the church as a practitioner His inspiration emerges out of the crossroads of biblical vision and human sincerity always tempered with frailty Years of ministry never a stranger to complexity only serve to sharpen the vision of possibility His imagination of what can be is never divorced from the realities of what is He does not bow to the

common assumption that you can't get there from here. Here is the only possible point of origin for us. In his succinct, easy-to-understand writing style, Suderman provides insightful and thought-provoking perspectives on what it means to be the church. To be a people called out to participate together in God's activity in the world and to create programs and structures needed for effective ministry are two sides of the same coin. This book is for dreamers and bureaucrats alike; indeed, it assumes that the two are indispensable pieces of God's coming presence. Introduction by Tom Yoder Neufeld. **Aging**, 2000. [Dying and the Virtues](#). Matthew Levering, 2018-01-23. In this rich book, Matthew Levering explores nine key virtues that we need to die and live well: love, hope, faith, penitence, gratitude, solidarity, humility, surrender, and courage. Retrieving and engaging a variety of biblical, theological, historical, and medical resources, Levering journeys through the various stages and challenges of the dying process, beginning with the fear of annihilation and continuing through repentance and gratitude, suffering and hope, before arriving finally at the courage needed to say goodbye to one's familiar world. Grounded in careful readings of Scripture, the theological tradition, and contemporary culture, *Dying and the Virtues* comprehensively and beautifully shows how these nine virtues effectively unite us with God, the One who alone can conquer death. [Cumulated Index to the Books](#), 1999. [Annual Editions: Aging](#). Harold Cox, 2006-04. Selected articles from journals, magazines, and newspapers on the subject of aging. [Handbook of the Humanities and Aging](#). Thomas R. Cole, Robert Kastenbaum, 1992. [Aging](#). Susanne Formanek, Sepp Linhart, 1997. With the greying of the population in Western industrialized nations and the resultant problems, interest has increasingly been drawn to the construction of old age in historical periods and non-European societies. Asia has been the focus of considerable attention in this context, due on the one hand to values such as filial piety or the prevalence of the seniority principle, which many Asian cultures are credited with and which are thought to contribute to creating a cultural climate especially favourable to the elderly in this region of the world, and to recurrent reports of a tradition of abandonment of the elderly on the other, which also attest to a darker side of this issue. In 17 contributions that geographically span the area from India to China and Japan and historically cover periods from the earliest times of literate cultures to the present, the volume presents new findings on both the valuation of aging in the various intellectual and religious traditions of Asia and the actual living conditions of the elderly in this region of the world in a cross-cultural perspective. The considerable historical and regional variation in the conceptions of old age and the often surprising determinants of the status of the elderly as they are documented in this volume should also contribute to enrich socio-gerontological discussion on a more general level.

*Ethics in an Aging Society* Harry R. Moody,1992 Moody examines both the clinical and the policy issues that center on aging paying special attention to the ethical problems associated with Alzheimer s disease and the issue of rational suicide for reasons of age He also focuses on the rights of patients in long term care and on the question of justice between generations
