only problem with this thought process however is that when you are living a life where you think in terms of win or lose what you are actually doing is turning your usually colorful life and turning it into a black and white Audrey Hepburn movie You miss out on all the nuances of living life and get sucked into a repetitive thought pattern where all you can think of is what you missed out on In short you forget to see the positives in life because you are so fixated on the negatives This is not your run of the mill power of positive thinking book It not only tells you about the power of positive thinking and how to utilize this to change your life but it also explains HOW this works how your mind works and why negative thinking can and will bring about negative consequences The author draws upon real life circumstances and analogies to bring the information contained within this book to life explaining in detail not only how or thinking can keep us from succeeding but tells us why it works the way it works and how we can combat it to help us succeed in meeting our goals and being the person we were truly meant to be He does this in a no nonsense straight forward manner encouraging us to be the best we can be by silencing those thoughts that tend to put us in this negative cycle

Watt,2010-04-01 In a world full of self help books and personal growth seminars we are bombarded with images of what life should be and what success really is From the moment of our birth we are surrounded by temptation and by pressure to conform and we are conditioned to adhere to society s standards It is this problem says author Mark D Watt that distracts us from the true issue What is success and where does it really come from Speaking from his own life experience Watt reminds us that success only comes from one book the Bible A life focused on man s goals and successes ignores that these principles stem from the Bible itself which Watt refers to as the Basic Instructions Before Leaving Earth and that earthly successes are not inspired by earthly creators Using his own biblical interpretations Watt asserts that man should focus not on monetary gain for spreading wisdom but on the wisdom itself Mark
