Two Koreas One Future:

Two Koreas in Development Byoung-Lo Philo Kim, The startling revolutions of recent years have had as great an impact on Northeast Asia as on Eastern Europe Gorbachev's cautious withdrawal of support for North Korea and his establishment of ties with South Korea have created a need for a new research agenda exploring how communism and capitalism in Asia can be successfully restructured or redirected in a new world order Focused on systemic issues this book is the first study to attempt a comprehensive analysis of social and economic development in modern Korea as a whole As a homogeneous nation artificially divided by the competing ideologies of the Cold War Korea provides a unique laboratory for comparing divergent development processes undertaken by conflicting social systems Current theories of Third World development have advocated either capitalist models of modernization or have called for the establishment of self-reliant socialist economies cut off from the world capitalist system While capitalist South Korea has consistently outperformed Communist North Korea since the mid 1970s development has not yet brought a fully evolved Western-style democracy in its wake Self-reliant North Korea achieved successful growth during its first fifteen years but has since been faced with numerous structural limitations on sustained development including severe restrictions on political freedom and civil liberties In the author's view the experience of the two Koreas suggests that the solution to underdevelopment must be based on the realization that exclusionary theories need modification in the light of special historical and sociological circumstances peculiar to individual nations This volume offers a valuable interpretation of modern Korean history and constitutes an important contribution to the comparative study of capitalism and communism in practice It will be of particular interest to specialists in international relations and comparative political systems

Arming the Two Koreas Taik-Young Hamm, 2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Korea's military strength is partly a myth created by South Korea to justify a huge programme of rearmament

The Koreas, 1990 **Korea** Geoff Simons, 1995-07-13 A broad history of Korea with a particular focus on key twentieth-century events Particular attention is given to the dispute over North Korea's controversial nuclear development programme This issue is profiled in the context of the post-Soviet world and against such crucial modern events as the Japanese colonization of the Korean peninsula the US partition the resulting Korean War and the subsequent development of North and South The detailed information both supports a succinct history and encourages an interpretation that transcends Western propaganda
