Marglin, 1996-04-25 Development failures environmental degradation and social fragmentation can no longer be regarded as side effects of externalities They are the toxic consequences of pretensions that the modern Western view of knowledge is a universal neutral view applicable to all people at all times The very word development and its cognates underdevelopment and developing confidently mark the first world s as the future of the third This book argues that the linear evolutionary paradigm of development that comes out of modern Western view of knowledge is a contemporary form of colonialism The authors covering topics as diverse as the theory of knowledge underlying the work of John Maynard Keynes what the renowned British geneticist J B S Haldane was looking for when he migrated to India the knowledge of Mexican and Indian peasants propose a pluralistic vision and decolonization of knowledge the replacement of one way transfers of knowledge and technology by dialogue and mutual learning *Wilderness and the Quality of Life* Maxine E.
