Wilderness Visionaries Jim Dale Vickery, 1994 **Proceedings RMRS.** ,2000 **Where Roads Will Never Reach**
Frederick Harold Swanson, 2015 Areas of the Rocky Mountains of Idaho and Montana are some of the most important remaining examples of American wilderness These areas have been preserved because of citizens who stood against private and government plans to build roads and dams for timber and hydropower projects and to diminish wildlife habitat Where Roads Will Never Reach tells the stories of hunters anglers outfitters scientists and other concerned citizens who devoted themselves to protecting remnant wild lands and ecosystems in the northern Rockies Beginning in the 1940s and 1950s as encroaching roads dams and clearcuts degraded habitat for native trout salmon grizzly bears and other mammals large and small these alarmed men and women took action Environmental historian Frederick Swanson argues that their heartfelt eloquent message on behalf of wild creatures and the places they live helped boost the American wilderness movement to its current prominence General Technical Report NE ,1980 *Park Science* ,2009 *Pioneering Conservation in Alaska*

In Mountains of Memory, seasoned wilderness dweller Don Scheese charts a long season of watching for and fighting fires in Idaho's River of No Return Wilderness, 151,000 acres, the largest federal wilderness area in the mainland United States. An inspiring tale of self-discovery, Mountains of Memory paints a complex portrait of the natural, institutional, and historical forces that have shaped the great forested landscapes of the American West. A student of nature writing as well as a fire lookout with over a decade of experience, Scheese recounts his life at the top of the world along with daring adventures such as backpacking and mountaineering in the Bighorn Crags and kayaking down the Middle Fork of the Salmon River. All the while, he touches upon the mysterious and powerful realities of the wilderness around him and stunning dawn vistas visible within the glass cage perched on a 9,000-foot mountain, stirring flashes of lightning visible all around the dark landscape as the radio crackles with reports of strikes observed and fires spotted. Long-awaited trips down the mountain to civilization for cold beer and hot pizza. In the tradition of Edward Abbey and Gary Snyder, Don Scheese offers readers a meditation on the meaning and value of wilderness at the beginning of the twenty-first century. Winter Sign Jim Dale Vickery, 1998. The focus of Jim Dale Huot Vickery's life is a remote cabin in the northern wilderness of Minnesota's Boundary Waters region. More often than not, it is winter here, a fierce, beautiful season that

dominates all living things with its relentless cold grip This is the inspiration for Winter Sign the profound story of fifteen years of surviving the seven month long odyssey of winter in the far north Against this backdrop Huot Vickery writes authoritatively on the ecology of the area and philosophically about winter s probing of the human spirit He describes the animals surrounding him the wolves deer fox and other wildlife who draw him into their age old struggle He experiences love pain grief and circles around paradoxes and themes that invade the land and his life nature s beauty and bounty pitted against danger and death
