What Works A New Approach To Program And Policy Analysis:

What Works Kenneth Meier, Jeff Gill, 2000-05-05 *What Works* is a concise methods text that represents a new approach for policy program analysis. The authors Meier and Gill combine statistics with normative concerns. They consider how things might be and they focus on subsets of cases that differ from the norm. Their approach uses regression and methods in a qualitative yet rigorous manner. In *What Works*, the authors address questions such as the following: why do some agencies learn to perform missions faster than others? What factors influence this learning? In which states do criminal justice policies based on deterrence work? What do excellent school districts do differently from those that are simply better than average? Why do some firms comply with public policy quickly while others wait? The case examples the authors employ and evaluate are especially helpful. *What Works* will appeal to anyone seriously interested in policy analysis and in learning about and understanding new approaches for policy program analysis. **Energy Abstracts for Policy Analysis**, 1984-07 **The**

Oxford Handbook of Job Loss and Job Search Ute-Christine Klehe PhD, Edwin van Hooft PhD, 2018-05-08 Job search is and always has been an integral part of people's working lives. Whether one is brand new to the labor market or considered a mature experienced worker, job seekers are regularly met with new challenges in a variety of organizational settings. Edited by Ute Christine Klehe and Edwin A. J. van Hooft, *The Oxford Handbook of Job Loss and Job Search* provides readers with one of the first comprehensive overviews of the latest research and empirical knowledge in the areas of job loss and job search. Multidisciplinary in nature, Klehe, van Hooft, and their contributing authors offer fascinating insight into the diverse theoretical and methodological perspectives from which job loss and job search have been studied, such as psychology, sociology, labor studies, and economics. Discussing the antecedents and consequences of job loss, as well as outside circumstances that may necessitate a more rigorous job hunt, this Handbook presents in depth and up-to-date knowledge on the methods and processes of this important time in one's life. Further, it examines the unique circumstances faced by different populations during their job search, such as those working job to job, the unemployed, mature job seekers, international job seekers, and temporary employed workers. Job loss and unemployment are among the worst stressors individuals can encounter during their lifetimes. As a result, this Handbook concludes with a discussion of the various types of interventions developed to aid the unemployed. Further, it offers readers important insights and identifies best practices for both scholars and practitioners working in the areas of job loss, unemployment, career transitions, outplacement, and job search. *The Oxford Handbook of Job Loss and Job Search* Ute-Christine Klehe, Edwin A. J. van Hooft, 2018. Combining current knowledge from psychology, sociology, labor studies, and economics, *The Oxford Handbook of Job Loss and Job Search* presents one of the first comprehensive overviews of the knowledge and research on job loss and job search. It provides readers with suggestions for further research and offers hands-on practical advice. *Evaluation Forum*, 1993 *The Director-General's Program of Work and Budget for ...* Food and Agriculture Organization of the United Nations, 1972
