Social Work Methods and Skills Karen Healy, 2011-12-05 This brilliantly systematic and comprehensive textbook provides an integrated approach to social work theory methods and skills as the bedrock of all social work practice Recognizing social work as a diverse activity that is rooted in common foundations it explains how practice both shapes and is shaped by professional purpose The text also explores the diverse range of social work practice methods available and aims to equip the reader with a foundation in the history and application of these varied approaches Offering a step by step discussion that will empower readers to critically develop and refine their professional toolkit for purposeful and innovative intervention this original rationale is an essential resource for any social work student or practitioner looking to build or consolidate their understanding of the range of methods and skills available for effective professional practice *Qualitative and Quantitative Models in Socio-Economic Systems and Social Work* José Luis Sarasola Sánchez-Serrano, Fabrizio Maturo, Šárka Hošková-Mayerová, 2019-06-21 The main purpose of this book is not only to present recent studies and advances in the field of social science research but also to stimulate discussion on related practical issues concerning statistics mathematics and economics Accordingly a broad range of tools and techniques that can be used to solve problems on these topics are presented in detail in this book which offers an ideal reference work for all researchers interested in effective quantitative and qualitative tools The content is divided into three major sections The first which is titled Social

work collects papers on problems related to the social sciences e.g. social cohesion, health and digital technologies. Papers in the second part, Education and teaching issues, address qualitative aspects: education, learning, violence, diversity, disability and ageing, while the book's final part, Recent trends in qualitative and quantitative models for socio-economic systems and social work, features contributions on both qualitative and quantitative issues. The book is based on a scientific collaboration in the social sciences, mathematics, statistics and economics, among experts from the Pablo de Olavide University of Seville, Spain; the University of Defence of Brno, Czech Republic; the G. D. Annunzio University of Chieti-Pescara, Italy; and Alexandru Ioan Cuza University of Iași, Romania. The contributions, which have been selected using a peer review process, examine a wide variety of topics related to the social sciences in general, while also highlighting new and intriguing empirical research conducted in various countries. Given its scope, the book will appeal in equal measure to sociologists, mathematicians, statisticians and philosophers, and more generally to scholars and specialists in related fields.

**Mastering Social Work Supervision** Jane Wonnacott, 2012. This book is an accessible guide to the essential skills of social work supervision.
