Statistical Computer Performance Evaluation:

Statistical Computer Performance Evaluation Walter Freiberger,2014-05-10 Statistical Computer Performance Evaluation contains the proceedings of a Conference on Statistical Computer Performance Evaluation held at Brown University in Providence Rhode Island on November 22 23 1971 under the auspices of the Division of Applied Mathematics and the Center for Computer and Information Sciences The papers review the application of quantitative and particularly statistical methods to the study of computer performance Comprised of 19 chapters this book begins with an overview of the state of the art of computer system evaluation and some quantitative methods analytical simulation and empirical methods that are applicable to the problem A utility theoretic approach to evaluation of a time sharing system is then described followed by a discussion on the results of a multi factor paging experiment Subsequent chapters focus on statistical quantification of instruction and operand traces measurement and improvement of program behavior under paging systems free storage algorithms and probabilistic models for predicting software reliability This monograph will be of interest to practitioners in the fields ofcomputer science and applied mathematics **Statistical Computer Performance Evaluation. Center for Computer and Information Sciences,1972 **The Art of Computer Systems Performance Analysis** Raj Jain,1991-04-16 Based on the author s experience in industry this book focuses on simple techniques for solving everyday problems in systems design and analysis All techniques are covered in a non mathematical way so that no statistics expertise is necessary **Application of Statistical Analysis Techniques to Computer Performance Evaluation** Margaret A. Stover,AIR FORCE INST OF TECH WRIGHT-PATTERSON AFB OH SCHOOL OF ENGINEERING.,1982 Multivariate statistical analysis techniques were examined to determine their applicability to computer performance evaluation Specific techniques were multilinear regression automatic interaction detection AID and ridge regression A simulated data base created through a computer performance evaluation simulation developed at the Air force Institute of Technology was modeled using each technique Multilinear regression derived the most accurate modeling equations though no method adequately explained the variation in turnaround time Ridge regression designed to circumvent multicollinearity also created modeling equations but was less accurate because no multicollinearity

was present in the system AID however clustered the data into groups which explained high levels of the variability of the criterion variable within each group and little between the groups Data records which met the selection criteria for each group should also have values of the criterion variable within the range specified by that group Although difficult to use AID provided initial information about systems which could not be modeled through regression or other techniques The applicability of each technique to selected types of computer systems was alsodocumented Author **Introductory Readings In Geographic Information Systems** D J Peuquet,D F Marble,1990-09-19 Even though Geographic Information Systems GIS have been available for over 20 years they have only recently become accessible to geographers and others as a useful tool in spacial analysis This book assembles a balanced sample of written works covering important aspects of the basic principles of GIS and selected examples of applications **Journal of Research of the National Bureau of Standards** ,1979 Journal of Research of the National Bureau of Standards United States.
