## **Squandered Computer:**

The Squandered Computer Paul A. Strassmann, 1997 Strassmann reveals the hidden costs versus value of information technology including how to realize the alignment of IT and business plans how spending interacts with revenue overhead costs and personnel related to IT and the idea of workload without payoff One strategy is outsourcing and the perspective that the best companies do not outsource massive amounts of data manipulation but rather study good reasons for outsourcing and manage it effectively without decaying their information assets

**A New History of Modern Computing** Thomas Haigh, Paul E. Ceruzzi, 2021-09-14 How the computer became universal Over the past fifty years the computer has been transformed from a hulking scientific supertool and data processing workhorse remote from the experiences of ordinary people to a diverse family of devices that billions rely on to play games shop stream music and movies communicate and count their steps In *A New History of Modern Computing* Thomas Haigh and Paul Ceruzzi trace these changes A comprehensive reimagining of Ceruzzi's *A History of Modern Computing* this new volume uses each chapter to recount one such transformation describing how a particular community of users and producers remade the computer into something new Haigh and Ceruzzi ground their accounts of these computing revolutions in the longer and deeper history of computing technology They begin with the story of the 1945 ENIAC computer which introduced the vocabulary of programs and programming and proceed through email pocket calculators personal computers the World Wide Web videogames smart phones and our current world of computers everywhere in phones cars appliances watches and more Finally they consider the Tesla Model S as an object that simultaneously embodies many strands of computing

*The Use of Force After the Cold War* H. W. Brands, 2003 The end of the Cold War created a near euphoria that nations might resort less to military force and that the Doomsday nuclear clock might stop short of midnight Events soon dashed the higher of these hopes but the nature of military force and the uses to which it might be put did appear to be changing In this volume eleven leading scholars apply their particular expertise to understanding what if anything has changed and what has not why the patterns are as they are and just what the future might bring Together the authors address political moral and military factors in the decision to use or avoid military force Case studies of the Gulf War and Bosnia analyses of the role of women in the armed forces and the role of intelligence agencies and studies of inter branch and inter agency tensions and cooperation inform the various chapters A strong and thoughtful introduction by H W Brands provides the context that ties together the themes and perspectives Scholars in this distinguished collection include Stephen Biddle Alexander L George J Bryan Hehir Andrew Kohut Andrew Krepinevich James M Lindsay Charles Moskos Williamson Murray Bruce Russett Tony Smith and Susan L Woodward The volume will help scholars policy makers and concerned citizens contemplate national alternatives when force threatens
