Sudden Strangers:

The Sudden Strangers William Edmund Barrett, 1956 Romance set in contemporary New York Catholic story

The Sudden Strangers William Edmund Barrett, 1957

Sudden Strangers Aaron Fricke, Walter Fricke, 2016-06-14 This is a story about Walter Fricke and Aaron Fricke father and son heterosexual and gay respectively on all counts It has taken six years to complete this book During that time there were periods when it was worked on steadily and times when the material was abandoned as hopeless The book changed as our father son relationship changed and each transformation of the book reflected the transformations in our relationship It is neither the same book nor the same relationship that we started with six years ago This was a book that had to be lived not simply written The final product is the story of an evolving father son relationship a story of two people with different ways of looking at the world and of the hurdles we needed to overcome to respect each other

A School of London Chip Martin, 2011 American abroad glow of Europe at a distance London in the foreground a background of not quite settled Englishness it is a mix as familiar as a scenario by Henry James or a pop song from an unforgotten yesterday In this triptych of the closing years of the 20th century a world of bohemianism comes to life again its dreams of glory its subtle conflicts its disintegrating passions heedless ambitions and slouching towards evanescent spirituality The story is never straight reportage The atmosphere is heightened at times almost fantastic conversations are glancing and elliptical suggesting more than is spoken people change partners and their perception of each other like characters in *A Midsummer Night's Dream* But the world it portrays is wholly convincing within its terms of reference and one is caught up in its dramas from the first Linda Kelly Martin's work is imbued with an awareness of the difficulty of living a bohemian life in contemporary Europe and the difficulty becomes his subject Love the biggest culprit raises the spectre of bourgeois domesticity as often as it holds the promise of freedom *Times Literary Supplement*

About the Namboodiris, Ambalavasis, and Nairs of Malabar VED from VICTORIA INSTITUTIONS, This volume like the eleven that precede it is not a conventional history It is an autopsy of the invisible machinery that has shaped human worth dignity and mental architecture across generations in a specific corner of the subcontinent the region once known as Malabar and the neighbouring kingdoms of Cochin and Travancore The author does not merely recount events rituals or genealogies He dissects the deeper code the feudal linguistic software that has silently assigned value imposed hierarchies and manufactured consent for centuries Words here are not neutral carriers of meaning they are loaded weapons that

elevate or crush ennoble or degrade with every shift in pronoun tone or form of address What emerges is a portrait of a society engineered for asymmetry The Namboodiri stands at the apex not merely through ritual monopoly or landed wealth but through the daily re enforcement of linguistic superiority The Ambalavasi occupies the temple precincts performing special services that are simultaneously honoured and quietly devalued The Nair whether Kiriyaathil Kiriyaathil Illakkar or one of the many shadowy lower strata functions as overseer enforcer and warrior yet remains permanently tethered below the Brahmin in the word code ladder Beneath them all lie the layers of the suppressed Thiyya Pulaya Pariah Ezhava and others whose very modes of speech mark them as lesser beings and whose language codes encode dirt and repulsive distaste into their very existence rendering them not only degraded but dangerous adversaries in the eyes of the social system The sixteen samskaras the five great sacrifices the mantras all are examined not merely as sacred inheritances but as instruments that encode dominance for the few and acquiescence for the many while simultaneously functioning as a protective shield that blocks the terrific negativity and degrading word codes that the lower classes can encode upon the higher classes The author's central thesis is stark feudal languages are not innocent vehicles of culture they are active designers of pathology They manufacture demonic traits hidden competitiveness feigned deference masking contempt mechanical subservience and the pleasure taken in crushing those below English by contrast the planar symmetrical language the English inadvertently carried acts as a solvent It dissolves the ladder equalises the pronouns and opens the path for individuals and communities to rise together supporting one another through merit rather than being held back by birth or linguistic manipulation The contrast is not sentimental it is structural This volume also refuses the nationalist flattening that reduces Malabar Travancore and Cochin to a single Kerala or India The author meticulously traces migrations ritual divergences linguistic borrowings and status rivalries showing how communities were never one people but many bound together by force opportunism and the codes that made hierarchy feel natural Yet the work is not despairing It is written from a place of quiet outrage on behalf of those who were never allowed to speak as equals It remembers the Pulaya whose death is chavuka animal level dying rather than marikkuka human level dying It remembers the lower caste convert who could walk past a Nair without causing atmospheric pollution only after embracing another faith It remembers the English trader who by refusing to learn the brutal local pronouns inadvertently broke the spell for a few The Hidden Architect is ultimately a call to recognise the architect and to dismantle the architecture Not through violence but through the patient radical act of speaking and being spoken to as equals May this book serve as both mirror and map a mirror to the hidden mechanisms that have long determined worth and a map toward a different kind of society one in which no human being is ever again addressed or addressed as less than human
