Political and Military Sociology Bruce D. McDonald III, 2017-07-12 Political and Military Sociology Volume 41 explores the social elements and impact of national defense. The origin of government is a response to a society's common interest in security and defense. In recent years, security and defense issues and government responses have become increasingly prominent in societies around the world. Despite intermittent pushes for privatization, however, security and defense have remained core functions of government. In this volume, Bruce D. McDonald III investigates the historiography of the defense-growth relationship. Lachezar G. Anguelov and Robert J. Eger III consider the social impact with a case study of the Republic of Serbia. Maximiliano Mendieta and Bruce D. McDonald III consider the social spillovers of the sector that arise after the completion of a soldier's service. Paul Kellogg considers why some countries have fared well when others have been slow to rebound. Hamid E. Ali studies pork barrel spending in the United States. Susan Sample Brandon Valeriano and Choong Nam Kang broaden the understanding of the defense sector to include its output. Hamid E. Ali and Ubah A. Adan conclude the volume with a study on conflict and infant and child mortality rates. Traditionally, national defense is viewed solely in military terms. As part of their national security objectives, many defense sectors have undertaken a variety of social programs. While the existence of social programs is known, what remains uncertain is how they spill over from the sector to society at large and what is the impact of that spillover.

Winning Travis Moody, 2016-05-13 There is no question that life is definitely more fun when we win. Unfortunately, many of us are just drifting through life while often facing defeat at every turn. We long to improve our relationships, our health, and our finances, but for many of us, it seems as though we are just getting by in life. The good news is that God does not want us just to survive so that we can enjoy eternity. God wants for us the same thing that we all want for ourselves: to win in life. He wants for us to win in our relationships, in our health, and in our finances. This book will help you do just that. Winning begins with a brief self-assessment that encourages honest reflection on the kinds of behaviors that trigger freedom, peace, and inner strength. Travis Moody, a former college athlete and corporate executive turned life coach and stewardship consultant, relies on his personal experiences—both good and bad—to provide practical and spiritual advice intended to help you move from merely surviving to living a life of success and ultimately a life fulfilling your own unique purpose. In this step-by-step guide, you will learn how to win in every area of your life.

Restructuring Development Theories and Policies M. Shamsul Haque, 1999-09-09 In the contemporary global context, replete with various forms of development crises, there is a growing demand for an alternative perspective. Haque explains the nature and forms of these current development crises, critiques the inadequacies of existing development theories to address such crises, restructures these theories into an alternative theoretical perspective, and suggests specific policy guidelines for attaining a genuine mode of development. He interprets development not as human conformity with any hegemonic development schemes but as human autonomy from various forms and levels of subjugation. The book presents original arguments, covers

up to date literature adopts a multidisciplinary approach mediates between theories and policies and offers a comprehensive development alternative
