Kameen, 2012-01-12 2001 CCCO Outstanding Book Award The vast majority of academic books are written from the scholar s position even those that primarily concern teaching Writing Teaching on the other hand is a book about teaching written from the position of the teacher As the title suggests Kameen s book is split into two halves yet both in different ways and through different discourses are derived from his work in the classroom and his own struggle with issues and problems all teachers of writing must face The first half is a series of essays originating from a graduate seminar Kameen team taught with professor and poet Toi Derricotte in 1994 Included are essays Kameen wrote a selection of pieces written by other members of the group and a reflective postscript These essays combine personal narrative reflective meditation and critical inquiry all used as discourse to depict and examine the process of teaching The second half of the book contains essays on Plato s dialogues primarily Phaedrus and Protagoras as a means to interrogate the position of teacher through the lens of the most famous of Western pedagogues Socrates Here Socrates is used as a tool to examine and critique both Kameen s own teacherly identity and in a wider sense the set of cultural forces that pre figure the available positions for both teacher and student in contemporary education What unites both halves is the way Kameen approaches each the personal and the scholarly from his position as teacher The texts presented provide the occasion for a complex and nuanced meditation on the classroom as a legitimate arena for the production of knowledge and research Sure to be timely and controversial Writing Teaching will enter into the debate on whether to reconfigure the relationship between research and teaching currently taking place among teachers of composition cultural studies and rhetoric Compelling reading for teachers or those contemplating a career in the profession **Instructional Leadership Efforts and Evidence-Based Practices to Improve Writing Instruction** VanSlander, Jennifer, 2023-10-11 Writing is a critical skill for academic and professional success yet it is often neglected in schools According to achievement data only a quarter of students in the United States are proficient writers indicating a significant need for improvement in writing instruction One contributing factor to this problem is the lack of school and district leadership in writing instruction School improvement efforts are often concentrated on reading and math leaving writing instruction overlooked Additionally issues related to writer identities self efficacy in writing and educator training can also impact the effectiveness of instructional leadership in this critical subject *Instructional Leadership Efforts and Evidence Based Practices to Improve Writing Instruction* edited by Jennifer VanSlander of Columbus State University provides within this peer reviewed book an exploration of evidence based practices aimed at

Jackson, 2012 While the Socratic method has historically been the predominant tool for legal education in many first year classes its use in legal writing classes has been less widespread Instead legal writing classes have been at the forefront of teaching innovation in law and this innovation has trickled down into other first year classes However in the rush to use innovative teaching methods the value of the Socratic method as a teaching tool should not be ignored The Socratic method if used correctly has the potential to be a valuable tool in the teaching of legal writing This article explores the fitness of the Socratic method as a tool for the teaching of legal writing classes in the first year law school curriculum It considers the advantages of the Socratic method as a tool for active learning teaching cognitive skills in legal analysis and encouraging the development oral skills The article also explores the common criticisms of the Socratic method the argument that it is humiliating and terrorizing for students that it is hierarchical and unfair to women students that it hides the ball and wastes class time and that it encourages laziness and confusion in both students and professors The article concludes that while many of these criticisms have merit the nature of legal writing classes has the potential to ameliorate the ill effects of the Socratic method and to enhance the methods advantages as a teaching tool **The Principles and Practice of Teaching and Class Management** Joseph Landon, 1894 **Writing Success Through Poetry** Susan Lipson, 2006 Offering a wide variety of creative prompts that will engage any writer Writing Success Through Poetry provides timesaving lessons to help teachers create a writers workshop in the classroom The author a published poet and children s book author provides 25 original poems as prompts for students to use as inspiration for their own poetry and prose The book offers practical pointed
