Cercatore,2012-07-15 The process of creation devolution and evolution is a cycle of descension through the down stepping of energy and personality from the infinite to the physical creation and ascension from the physical back to the spiritual evolution This book describes that process **The Articles of Alf** William John Hatten,2018-01-06 This book brings to print a collection of past ignored feedback social topics issues that had appeared in news media outlets at the time That feedback response from the author also brought new information to those unresolved issues that continuously plague every Nation every generation They do require patient study as they are written from a spiritual understanding of the subject matter Because the present information coming out Education all Communication Mediums is incomplete It only contains the physical sourced facts in its content and not the spiritual sourced facts that underwrite all physical facts including life Until mankind finds a solution to address that shortcoming in our existing acquired knowledge we will not solve the social issues contained in this book Along with many other unresolved world problems that unknowingly mankind has also created into perpetuity A growing chaos that is also preventing mankind from creating a Unified World of Nations A Crossroads of Information in the title of this book is to indicate that the Articles contained in it are written from a spiritual understanding of their subject matter Not just a physical understanding of the subject matter Because physical and spiritual are two sides of the same coin of life One visible and known and one invisible and unknown Until the physical path of knowledge merges with the spiritual path of knowledge in our education systems then life knowledge and education is incomplete in its understanding Therefore so are we as human beings **Questions & Answers for the Verses Absolute & Relative** William Hatten,2009-06 About Book 2 Questions Answers for the Verses Absolute Relative comes as a sequel to Book 1 for those wishing to delve deeper into its Verses for meaning substance direct from the Author About the Author and Mankind Nothing is beyond our reason or doing once we have conquered the ignorance of not knowing for Intelligence in Creation is not of one form that which we are born with is not necessarily the norm The Intelligence of Nature is progressive and fine that will compliment the contents of the individual mind For more information on the above register with Alf in charge of status free Boot Camp at www.alfsworldgripes.com and amazing as it may seem in this World entry is free Coming soon is Book 3 Oh No Not More Gripes and a read for those not able to attend Boot Camp to understand its plot But the Reader will have to pay for that to recover publishing costs sorry about that but it s a question of economics and the Authors diminishing bank balance *Chinese Recorder and Missionary Journal* ,1926

Antony suggests that we have arrived at a point where human consciousness in its current state is incapable of negotiating the increasingly complex and dire environmental challenges we now face as a result of the technological revolution On this basis he suggests that the challenge of sustainability is not one which is amenable to a purely technological fix and may in fact require no less than a revolution of consciousness Illuminating hopeful and at times provocative Choice Point includes a detailed description of a path of consciousness change that is at once accessible to mainstream Western readers and also capable of yielding an evolutionary leap for humanity along with a more peaceful just and sustainable world **The**

James,1879 The New Cycle ,1905 **The Whole Person** Roberta Vienneau,2023-07-06 In a world where many are disillusioned with the highly drug dependent medical establishment integrative medicine is gaining popularity because of its more holistic approach Holism by definition implies greater than the sum of its parts and is a response to reductionism especially biological reductionism in medicine The holistic model widely accepted in integrative healthcare today is a biopsychosocial model that aims to treat the whole person It is a systems hierarchy model that includes the universe to a cell

particle so one's understanding of holism will be reflected in what one considers relevant. To a pulmonologist holism might mean the whole respiratory system; to a geneticist holism might mean the whole family history; but who is treating the whole person? This groundbreaking book sheds light on the limitations of integrative healthcare in exploring the full potential of homeopathy in treating the whole person. It argues that we don't need a new approach, definition, or understanding of holism. We sometimes just need to step out of the systems hierarchy model of the reductionist paradigm itself to get a larger view and redefine the boundaries of what constitutes the wholeness of a person. With a clear and engaging writing style, the book takes readers on a journey through the history and evolution of the concept of whole and presents a compelling case for the adoption of an anthroposophic paradigm as a more comprehensive and effective approach to holism, healing, and homeopathy. Whether you are a homeopath, a healthcare practitioner, a patient, or simply interested in holistic medicine, this is a must-read book that will challenge your assumptions and expand your understanding of what it means to treat the whole person.
