## **True Freedom:**

**Does Truth Matter?** Dr. Jean Maalouf, 2025-06-26 In the heart of our hearts we know that without truth nothing is worth living or dying for This is why the pursuit of truth has been still is and will ever be a widely shared project of humankind But why then do we lie almost spontaneously Why does the epidemic of cheating cover all segments of society Why are we so apathetic in the face of hypocrisy Why do we have this need to lie Why do we refuse to allow the truth to free us What does make the fact of being genuine so terrifying and spine chilling Is the claim that truth is another name for opinions that suit societal demands of a time and space true Is truth changeable or eternal To these questions and to many more Dr Maalouf masterfully proposes sharp and bold answers that our world needs especially when facing the palpable and unwelcome decline in character values and virtues the very ground of civilization The truth is that without truth a civilization cannot survive This little book takes on a gigantic topic and makes it accessible and understandable to everyone With its groundbreaking and simple words this work is of tremendous intellectual courage in raising big issues without compromises It is a great contribution for the world of truth Rethinking Positive and Negative Liberty Maria

Dimova-Cookson, 2019-09-04 This book argues that the distinction between positive and negative freedom remains highly pertinent today despite having fallen out of fashion in the late twentieth century It proposes a new reading of this distinction for the twenty first century building on the work of Constant Green and Berlin who led the historical development of these ideas The author defends the idea that freedom is a dynamic interaction between two inseparable yet sometimes fundamentally opposed positive and negative concepts the yin and yang of freedom Positive freedom is achieved when one succeeds in doing what is right while negative freedom is achieved when one is able to advance one s wellbeing In an environment of culture wars resurging populism and challenge to progressive liberal values recognising the duality of freedom can help us better understand the political dilemmas we face and point the way forward The book analyses the duality of freedom in more philosophical depth than previous studies and places it within the context of both historical and contemporary political thinking It will be of interest to students and scholars of liberalism and political theory The
