Eleanor's Book of Common Spiders provides an eye-opening arachnological overview of the natural history of species most noted by project participants showcasing some of the fascinating spiders found in our attics and tents, front lawns and forests and even introducing us to spiders that fish. Exploring species from the tiny but gymnastic zebra jumping spider to the naturally shy and woefully misunderstood black widow, this guide will be a tremendous resource for teachers, students and scientists alike. But more than this, it will transform the way we perceive the environment around us by deepening our understanding of its littlest inhabitants, inspiring all of us to find our inner naturalist, get outside and crawl across the dirt, magnifying glass in hand.

**Steinitz in London** Tim Harding, 2020-07-17. Drawing on new research, this biography of William Steinitz (1836-1900), the first World Chess Champion, covers his early life and career with a fully sourced collection of his known games until he left London in 1882. A portrait of mid-Victorian British chess is provided, including a history of the famous Simpson's Divan. Born to a poor Jewish family in Prague, Steinitz studied in Vienna where his career really began, before moving to London in 1862, bent on conquering the chess world. During the next 20 years, he became its strongest and most innovative player, as well as an influential writer on the game. A foreigner with a quarrelsome nature, he suffered mockery and discrimination from British amateur players and journalists, which eventually drove him to immigrate to America. The final chapters cover his subsequent visits to England and the last three tournaments he played there.
