removed them from the home and added two new sons in law precipitating a mid life crisis that leaves the Professor feeling as though he has lost the will to live because he has nothing to look forward to The novel initially addresses the Professor s interactions with his new sons in law and his family while continually alluding to the pain they all feel over the death of Tom Outland in the Great War Outland was not only the Professor s student and friend but the fianc of his elder daughter who is now living off the wealth created by the Outland vacuum The novel s central section turns to Outland and recounts in first person the story of his exploration of an ancient cliff city in New Mexico The section is a retrospective narrative remembered by the professor
