The Cult and Science of Public Health Kevin Dew,2012 In contemporary manifestations of public health rituals and events people are being increasingly united around what they hold in common their material being and humanity As a cult of humanity public health provides a moral force in society that replaces traditional religions in times of great diversity or heterogeneity of peoples activities and desires This is in contrast to public health s foundation in science particularly the science of epidemiology The rigid rules of scientific evidence used to determine the cause of illness and disease can work against the most vulnerable in society by putting sectors of the population such as underrepresented workers at a disadvantage This study focuses on this tension between traditional science and the changing vision articulated within public health and across many disciplines that calls for a collective response to uncontrolled capitalism and unremitting globalization and to the way in which health inequalities and their association with social inequalities provides a political rhetoric that calls for a new redistributive social programme Drawing on decades of research the author argues that public health is both a cult and a science of contemporary society

Australia, the Recreational Society David Mosler,2002-01-30 From its very inception Australia has been a derivative society First as part of the British Empire and then soon after World War II what Mosler considers the American Empire and the new end of century Americanized global culture This has meant that Australia has struggled to attain its own identity Mosler explores that struggle for national independence a struggle that seems to be doomed to failure According to Mosler the reasons for this failure lie in Australia s propensity to remain a recreational culture a culture more attuned to pleasure and dependence than regimented hard work and the concomitant collective pattern of national assertiveness The Australian economy defense arrangements culture and psychology have been dominated by other nations and transnational forces The prospects for the nation in the future appear to be somewhat grim unless this historical pattern

of dependence and lack of respect indeed almost contempt for national institutions is reversed A provocative analysis that will be of interest to scholars students researchers and anyone interested in Australian history and contemporary life and culture
