The Serge Trotsky Papers:

The Serge Trotsky Papers David Cotterill,1994-04-20 At a time when the orthodox Leninist regimes of Eastern Europe are in crisis Serge and Trotsky both stand as non orthodox revolutionaries whose messages will now emerge from underserved obscurity The Serge Trotsky Papers presents hitherto unpublished material from the Trotsky Archive at Harvard and the Serge Archive in Mexico Correspondence and other writings dating from 1936 to 1940 are drawn upon to illustrate the nature of the debate between these two great revolutionaries Their private debate is revealed in the correspondence begun in 1936 upon Serge s emergence from internal exile in the Soviet Union Their public polemic continues a highly animated dialogue on such matters as Kronstadt the Fourth International and the Spanish Revolution The editor provides clear introductions which contextualize and clarify the documents Cotterill has done a truly magnificent job Everything is accurate informative enriching and both scholarly and political The five essays are all of high quality I call this a model of the genre Professor Richard Greeman President of the Victor Serge Association *The Serge--Trotsky Papers* Victor Serge,1994 At a time when the orthodox Leninist regimes of Eastern Europe are in crisis Serge and Trotsky both stand as non orthodox revolutionaries whose messages will now emerge from underserved obscurity The Serge Trotsky Papers presents hitherto unpublished material from the Trotsky Archive at Harvard and the Serge Archive in Mexico **The Necessity of Errors**

John Roberts,2020-05-05 Truth and error are interdependent claims to truth can be made only in the light of previous error In *The Necessity of Errors* John Roberts explores how up to Hegel emphasis was placed on error as something that dissolves truth and needs to be eradicated Drawing on the fragmented corpus of writing on error from Locke to Luxemburg Adorno to Vaneigem and covering five key areas from philosophy to political praxis this wide ranging account explores how we learn from error under what conditions and with what means Errors Roberts finds are productive but not in any uniform sense or under all circumstances a theory of errors needs a dialectics of error **International Citizens' Tribunals A.**

Klinghoffer,2002-03-19 When faced with injustice what can a concerned citizen do In 1933 when Hitler tried to blame Communists for setting the German parliament on fire a group of European and American lawyers responded by staging a countertrial which proved them innocent and eventually led to their release A new unofficial way of advancing human rights was thus launched This groundbreaking study narrates the history of such citizens tribunals from this first astonishing success to the mixed record of subsequent efforts including tribunals on the Moscow show trials the American war in Vietnam Japanese sexual slavery the Chernobyl nuclear disaster and the excesses of global capitalism *The Russian Revolution and Civil War 1917-1921* Jonathan Smele,2006-04-15 The Russian Revolution and Civil War in the years 1917 to 1921 is one of the most widely studied periods in history It is also somewhat inevitably one that has generated a huge flow of literature in the decades that have passed since the events themselves However until now historians of the revolution have had no dedicated bibliography of the period and little claim to bibliographical control over the literature The Russian

Revolution and Civil War 1917-1921 offers for the first time a comprehensive bibliographical guide to this crucial and fascinating period of history. The Bibliography focuses on the key years of 1917 to 1921, starting with the February Revolution of 1917 and concluding with the 10th Party Congress of March 1921, and covers all the key events of the intervening years. As such, it identifies these crucial years as something more than simply the creation of a communist state. *The Red Atlantis* J. Hoberman, 1998. For most of the twentieth century, American and European intellectual life was defined by its fascination with a particular utopian vision. Both the artistic and political vanguards were spellbound by the Communist promise of a new human era, so much so that its political terrors were rationalized as a form of applied evolution, and its collapse hailed as the end of history. *The Red Atlantis* argues that Communism produced a complex culture with a dialectical relation to both modernism and itself. Offering examples ranging from the Stalinist show trial to Franz Kafka's posthumous career as a dissident writer, and the work of filmmakers, painters, and writers which can be understood only as criticism of existing socialism made from within. *The Red Atlantis* suggests that Communism was an aesthetic project, perhaps the aesthetic project of the twentieth century. Author note: J. Hoberman, staff writer for the *Village Voice*, writes on film and culture for the *Voice*, the *Voice Literary Supplement*, *Artforum*, and other publications. His books include *Bridge of Light: Yiddish Film Between Two Worlds* Temple, 1995, and *Vulgar Modernism: Writing on Movies and Other Media* Temple, 1991, which was nominated for the National Book Critics Circle award in criticism. He is an Adjunct Professor of Cinema at the Cooper Union. *The Ideas of Victor Serge* Susan Weissman, 1997. *The Trotsky Papers, 1917-1922* Leon Trotsky, Vladimir Il'ich Lenin, 1964. *The Bookseller and the Stationery Trades' Journal*, 1992. Official organ of the book trade of the United Kingdom. **A Death in Washington** Gary Kern, 2004. A new edition of the study explores the life of master spy Walter G. Krivitsky, who exposed dangers of the Stalin regime to the West and eventually ended up dead of suicide in Washington, D.C., a suspicious event that has raised questions about his last years as a spy. Reprint. *Intellectuals and the People* Angie Sandhu, 2007-10-22. Angie Sandhu examines the relation between intellectuals and society by examining this question in political theory. She critically engages with contemporary debates on the subject both in Britain and the U.S., drawing on a wide range of material. *Intellectuals and the People* carefully sets out a new argument that calls for intellectuals to address their own elite locations in society by challenging notions of intellectual difference and autonomy. *Society and Change*, 1998. **History and Revolution** Michael Haynes, Jim Wolfreys, 2007. In *History and Revolution*, a group of respected historians confronts the conservative revisionist trends in historical enquiry that have been dominant in the last twenty years. Ranging from an exploration of the English, French, and Russian revolutions and their treatment by revisionist historiography to the debates and themes arising from attempts to downplay revolution's role in history, *History and Revolution* also engages with several prominent revisionist historians, including Orlando Figes, Conrad Russell, and Simon Schama. This important book shows the inability of revisionism to explain why millions are moved to act in defence of political causes and why specific political

currents emerge and is a significant reassertion of the concept of revolution in human development *World Authors, 1900-1950*, 1996 Provides almost 2700 articles on twentieth century authors from all over the world who wrote in English or whose works are available in English translation **Revolution in Danger** Victor Serge, 1997 Writings from Russia 1919-1921 A collection of writings covering the post revolutionary period of Soviet history when Russia was a country under siege and foreign imperialists and native reactionaries were uniting in an attempt to strangle the revolution at birth This is a book that all socialists and anarchists must read and those who start will not be able to stop until they have read it to the very last page Tony Benn *The Cumulative Book Index*, 1996 A world list of books in the English language *Bibliographic Guide to Slavic, Baltic, and Eurasian Studies*, 1994 **Reinterpreting Russia** Steve D. Boilard, 1997-03-27 Attempts to advance the understanding of Russia by listing categorizing and describing some 600 recent books concerning Russia the Soviet Union and the post Soviet Russian Federation All books included were published between 1991 and 1996 inclusive **New Statesman Society**, 1994-04 **Histoire Russe**, 2002
