Atonement Eleonore Stump, 2018 The doctrine of the atonement is the distinctive doctrine of Christianity Over the course of many centuries of reflection highly diverse interpretations of the doctrine have been proposed In the context of this history of interpretation Eleonore Stump considers the doctrine afresh with philosophical care Whatever exactly the atonement is it is supposed to include a solution to the problems of the human condition especially its guilt and shame Stump canvasses the major interpretations of the doctrine that attempt to explain this solution and argues that all of them have serious shortcomings In their place she argues for an interpretation that is both novel and yet traditional and that has significant advantages over other interpretations including Anselm's well known account of the doctrine In the process she also discusses love union guilt shame forgiveness retribution punishment shared attention mind reading empathy and various other issues in moral psychology and ethics

War in the Age of the Enlightenment, 1700-1789 Armstrong Starkey, 2003-10-30 War in the 18th century war was a complex operation including popular as well as conventional conflict between Europeans and with non Europeans These conflicts influenced European intellectuals and contributed to the complexity of Enlightenment thought While Enlightenment writers regarded war as the greatest evil confronting mankind they had little hope that it could be eliminated thus peace proposals of the day were joined by more realistic discussion of the means by which war might be limited or rendered more humane In this book the author considers the influence of ideas and values on the actions of Enlightenment military personnel and how the rational spirit of the time influenced military thought producing a military enlightenment that applied rational analysis to military tactics and to the composition of armies In the late Enlightenment military writers explored the psychological foundations of war as a means of stimulating a new military spirit among the troops The Enlightenment was

however not the only cultural influence upon war during this century Religion the traditional values of the ancien regime and local values all contributed to the culture of force When Europeans engaged in military encounters with peoples in other parts of the globe cultural interchange inevitably occurred as well Further there is a revolutionary element that one must consider when defining the military culture The result of all these factors was a creative tension in 18th century warfare and an extraordinarily complex military culture *Cosmopolitanism and Its Discontents* Lee Ward,2020-06-23 Cosmopolitanism is one of the most venerable intellectual traditions in the history of political philosophy From the ancient Greek Diogenes claim to be a citizen of the world through to Kant s Enlightenment vision of a world government and even into our own time the idea of cosmopolitanism has stirred the moral imagination of many throughout history Arguably the Brexit referendum result and the election of Donald Trump in 2016 marked the first major public repudiation of the transnational globalizing cosmopolitan ideals that have arguably dominated politics in the liberal democratic West since the end of the Cold War This volume reconsiders cosmopolitanism and its discontents in the age of Brexit and Trump by bringing together the great thinkers in the history of political philosophy and contemporary reflections on the problems and possibilities of international relations human rights multiculturalism and regnant theories of democracy and the state **Kant's Concept of Dignity**
