Truffle Beds:

True Truffle (Tuber spp.) in the World Alessandra Zambonelli, Mirco Iotti, Claude Murat, 2016-07-26 This book focuses on the taxonomic diversity of the genus *Tuber* as economically important truffles. In contributions by internationally respected scientists it examines truffle systematics, interactions with abiotic and biotic environments, strategies for spore dispersal and molecular processes in truffles. Topics discussed include evolutionary theories and phylogeny of *Tuber* species from Asia, Europe and North America; the influence of climate on the natural distribution of *Tuber* species and fruiting body production; soil characteristics and vegetation in natural habitats; tools for tracing truffles in soil; host diversity; truffle inhabiting fungi and truffle associated bacteria; and the relationships of small mammals and wild boars with truffles as well as the smell of truffles. This book offers a valuable reference guide for all researchers working in the fields of mycology, ecology and the soil sciences and will also be useful for farmers and foresters interested in truffle cultivation worldwide.

A History of Food Maguelonne Toussaint-Samat, 2009-03-25 The story of cuisine and the social history of eating is an fascinating one and Maguelonne Toussaint Samat covers all its aspects in this classic history. New expanded edition of a classic book originally published to great critical acclaim from Raymond Blanc, The New York Times, The Sunday Telegraph, The Independent and more. Tells the story of man's relationship with food from earliest times to the present day. Includes a new foreword by acclaimed food writer Betty Fussell, a preface by the author, updated bibliography and a new chapter bringing the story up to date. New edition in jacketed hardback with c. 70 illustrations and a new glossy color plate section. Indispensable and an endlessly fascinating book. The view is staggering. Not a book to digest at one or several sittings. Savor it instead, one small slice at a time, accompanied by a very fine wine. New York Times. This book is not only impressive for the knowledge it provides, it is unique in its integration of historical anecdotes and factual data. It is a marvellous reference to a great many topics. Raymond Blanc. Quirky, encyclopaedic and hugely entertaining. Adelight Sunday Telegraph. It's the best book when you are looking for very clear but interesting stories. Everything is cross referenced to an extraordinary degree which is great because the information given is so complex and interweaving. The Independent. A History of Food is a monumental work, a prodigious feat of careful scholarship, patient research and attention to detail. Full of astonishing but insufficiently known facts. Times Higher Education Supplement.
