Autonomous Flight and Remote Site Landing Guidance Research for Helicopters R. V. Denton, 1987

Handbook of Work and Organizational Psychology Pieter Johan Diederik Drenth, 1984 The introductory volume of the *Handbook of Work and Organizational Psychology* is concerned with definitional, historical, and methodological fundamentals. It explores the nature of studies in work and organizational psychology, the role played by the professional psychologist, and the ways in which the discipline has developed within Europe. The editors attempt to characterize the domain of work and organizational psychology and examine relations between this and other subdisciplines within psychology, as well as those disciplines outside psychology also concerned with work and organization.

Development of Guidelines for Practical and Realistic Construction Specifications Miller-Warden Associates, 1965 A highway construction specification is a means to an end. Its mission is to provide the traveling public with an adequate and economical pavement on which vehicles can move easily from point to point. Specifications should be of the end result materials and methods or restricted performance types depending on the conditions of acceptance. To achieve maximum economy, specification requirements must be geared to policy and cost considerations. To insure practicality, the given administrative and engineering guidelines should be consulted. This report presents guidelines for the preparation of a complete specification meeting all requirements.
