Multiple Pathways to the Student Brain Janet Zadina,2014-05-06 From an award winning neuroscience researcher with twenty years of teaching experience *Multiple Pathways to the Student Brain* uses educator friendly language to explain how the brain learns Steering clear of neuro myths Dr Janet Zadina discusses multiple brain pathways for learning and provides practical advice for creating a brain compatible classroom While there are an abundance of books and workshops that aim to integrate education and brain science educators are seldom given concrete actionable advice that makes a difference in the classroom *Multiple Pathways to the Student Brain* bridges that divide by providing examples of strategies for day to day instruction aligned with the latest brain science The book explains not only the sensory motor pathways that are familiar to most educators visual auditory and kinesthetic it also explores the lesser known pathways reward survival language social emotional frontal lobe and memory attention and how they can be tapped to energize and enhance instruction Educators are forever searching for new and improved ways to convey information and inspire curiosity and research suggests that exploiting different pathways may have a major effect on learning *Multiple Pathways to the Student Brain* allows readers to see brain science through the eyes of a teacher and teaching through the eyes of a brain scientist

Making it on Broken Promises Lee Jones,2023-07-03 This book provides an occasion to examine the complex conjuncture between the White supremacist realities of the American Academy and the often threatening presence of brilliant Black men in the Academy This challenging book should also serve as an inspiration for a new generation of Black men deeply devoted to the life of the mind in or outside the Academy From the foreward by Cornel West Sixteen of America s leading scholars offer an uncompromising critique of the academy from

their perspective as African American men They challenge dominant majority assumptions about the culture of higher education most particularly its claims of openness to diversity and divergent traditions They take issue with the processes that determine what is legitimized as scholarship as well as with who wields the power to authenticate it They describe the debilitating pressures to subordinate Black identity to a supposedly universal but hegemonic Eurocentric culture They question the academy's valuing of individuality and its privileging of dichotomy over their cultural styles of community humanism and synthesis They also range over such issues as culturally mediated styles of cognition the misuse of standardized testing the disproportionate burden of service placed on African American faculty and a reward system that discounts it
