Tune in Yesterday John Dunning, 1976 Descriptions of the plots and characters of the most popular radio shows are included as well as basic information on schedules writers sponsors and performers In alphabetical order **Tune in Yesterday; Ultimate Encyclopedia of Old Time Radio, 1926-1976** John Dunning, ????? John Minford, Joseph S. M. Lau, 2000 Presents translations of two thousand years of Chinese literature from its beginnings to the Tang Dynasty in the tenth century *The Systematic Bible teacher*, 1875 **Mind** George Croom Robertson, George Frederick Stout, George Edward Moore, 1915 A journal of philosophy covering epistemology metaphysics philosophy of language philosophy of logic and philosophy of mind *Right Node Raising and Gapping* Katharina Hartmann, 2001-02-01 This book investigates two elliptical coordinations in German Right Node Raising and Gapping Ellipsis in both constructions is claimed to be the result of a phonological process which is conditioned by prosodic and focus semantic constraints It is convincingly argued that Right Node Raising cannot involve raising to the right periphery The alleged movement freely violates any of the well known restrictions on syntactic movement and it does not alter the scope relations within the coordination Gapping in contrast is more sensitive to syntactic conditions in that its remnants must be major syntactic constituents The author carefully examines the close connection between focus and ellipsis in the two constructions A considered discussion of focus structure demonstrates that the conjuncts are informationally dependent on each other This co dependence is also reflected in their particular intonational contour which is argued to be responsible for ellipsis in coordination **The Great American Songbook** Charles Denison, Chuck Denison, 2010 From Tin Pan Alley to Broadway and Hollywood The Great American Songbook The Stories Behind the Standards tells the stories of our most popular songs with humor drama and insight This is timeless music written in unique ways that is constantly being reinterpreted by each generation Isaac Stern made this distinction between talent and genius A person possesses talent genius possesses the person This is a book about singers musicians lyricists and composers taking their talent into the atmosphere of immortality They are fascinating and they set the standards by which popular music is measured They may not have lived easy lives but their creativity drove them to new heights and they changed the face of American music forever Music by a wide variety of artists is covered Some chapters tell the story of just one song others sketch the life stories of the artists Music lovers will find new facts and deeper understanding about old friends in The Great American Songbook The Stories Behind the Standards **Yesterday's Tomorrow** Olive Wadsley, 1929 **All-story Magazine**, 1916 **Gathered From Coincidence** Tony Dunsbee, 2015-03-01 Combining the personal memories and critical analysis of a self confessed pop addict with a wealth of contemporary documentary evidence Gathered From Coincidence reconstructs a truly momentous era to tell the story of the music of the Sixties year by year By tracing in parallel the origins and development of the recording careers of major talents on both sides of the Atlantic the Beatles the Rolling Stones the Beach Boys Bob Dylan Dusty Springfield and many more besides this

account shows how they traded creativity with one another All the great Sixties hits as well as a host of less well known gems are described in the context of the charts of the day tracking the ups and downs of different trends as they came and went such as rock n roll rhythm blues psychedelia modern folk the concept album or supergroups But beyond this each chapter also places the music in a broader historical and cultural setting of landmark events at home and abroad the space race the Profumo affair the Cold War Vietnam the growth of satire to show how as the decade unfolded the paths of pop and current affairs drew ever closer together If you thought the Sixties were just about the fleeting dreams of hippies in the Summer of Love then think again This book will open your eyes to a far reaching imaginative legacy and how it came to shape pop music as a dazzling art form in its own right
