Turtles, Tortoises and Terrapins
Ronald Isaac Orenstein, 2001
This book surveys the myriad of turtle anatomy habitat life cycles throughout the ages
Project director of the International Wildlife Coalition
Orenstein presents a popular book about turtles the term he uses for almost all marine aquatic and terrestrial species of the order Testudines
His own background is in ornithology rather than herpetology but his work in wildlife conservation has made him aware of the plight of turtles throughout the world and hopes people will help protect them if they get to know them a little better
He includes many color photographs
Turtles almost alone among reptiles have earned both human interest and affection
Our fascination with turtles though has not helped them much
Sought after for food as pets and for tortoiseshell their habitats under attack on land and sea
Turtle populations are in decline around the world
Understanding turtles is not only interesting but also important
Turtles tortoises and terrapins have been on earth since the Triassic Period approximately 200 million years ago
Their exact origins are uncertain though it is still unclear from which group of reptiles turtles sprang
Although the earliest fossils are clearly turtles their anatomy has changed dramatically over time
In addition turtle species vary greatly in such basic characteristics as anatomy and habitat preferences
Turtles Tortoises and Terrapins surveys the myriad of turtle anatomy habitat and life cycles

throughout the ages Human activities on the land and at sea pose the greatest threat that turtles have faced in the last 200 million years The battle to save turtles goes on and this book provides an important voice in turtle ecology Turtles Tortoises and Terrapins is the perfect resource for anyone interested in all facets of these amazing and diverse reptiles Status of Sea Turtle Conservation in the Western Indian Ocean ,1996 **The World of Turtles and Tortoises** John Lehrer,1993-12 A photographic study of the most popular and unusual turtles of the world *Marine Turtles of the Indian Subcontinent* GOI-UNDP Sea Turtle Project,2006 On the survey results of GOI UNDP Sea Turtle Project *Turtles* Whit Gibbons,Judy Greene,2009-12-21 With a friendly mix of scientific analysis and basic encyclopedic coverage Gibbons and Greene discuss a broad range of turtle topics including behavior ecology reproduction and development turtle human relationships and the appearance of turtles in popular literature *Live Freshwater Turtle and Tortoise Trade in the United States* ,1994 *Turtles, Men and Magic* C.
