The Average Of Deviance:

Statistical Rethinking Richard McElreath, 2020-03-13 Winner of the 2024 De Groot Prize awarded by the International Society for Bayesian Analysis ISBA Statistical Rethinking A Bayesian Course with Examples in R and Stan builds your knowledge of and confidence in making inferences from data Reflecting the need for scripting in today's model based statistics the book pushes you to perform step by step calculations that are usually automated This unique computational approach ensures that you understand enough of the details to make reasonable choices and interpretations in your own modeling work The text presents causal inference and generalized linear multilevel models from a simple Bayesian perspective that builds on information theory and maximum entropy The core material ranges from the basics of regression to advanced multilevel models It also presents measurement error missing data and Gaussian process models for spatial and phylogenetic confounding The second edition emphasizes the directed acyclic graph DAG approach to causal inference integrating DAGs into many examples The new edition also contains new material on the design of prior distributions splines ordered categorical predictors social relations models cross validation importance sampling instrumental variables and Hamiltonian Monte Carlo It ends with an entirely new chapter that goes beyond generalized linear modeling showing how domain specific scientific models can be built into statistical analyses Features Integrates working code into the main text Illustrates concepts through worked data analysis examples Emphasizes understanding assumptions and how assumptions are reflected in code Offers more detailed explanations of the mathematics in optional sections Presents examples of using the dagitty R package to analyze causal graphs Provides the rethinking R package on the author's website and on GitHub

The Average of Deviance K. Simpson, 2009-06 Devlin Kerry isn't your average associate creative director in charge of sex Not only does her personal demon Monica turn the ad agency's Halloween bash into her coming out party but now she has to deal with her best friend Cassie's demon Vanessa Consider this a warning against mixing sex advertising and demons One is bad two is worse and three is the state of Devlin's life *Ethnographic Free-List Data* Benjamin Grant Purzycki, 2025-03-18 Ethnographic Free List Data Management and Analysis With Examples in R details a method that involves research participants listing what they know or think about the researcher's topic of interest While researchers typically report these free list analyses in isolation this book incorporates them with other analytical methods and demonstrates how ethnographic free lists can be useful to a broad social science audience The first half of the book covers descriptive methods and the second half incorporates insights from the early chapters into a predictive statistical framework Author Benjamin Grant Purzycki explains how to collect clean and manage free list data and how to use R to calculate and visualize the data
