Technology not only the reviewing submissions and registration processes but also the actual conference Conference  
participants authors presenters and attendees only needed an internet connection and sound available on their computers in  
order to be able to contribute and participate in this international ground breaking conference The on line structure of this  
high quality event allowed academic professionals and industry participants to contribute work and attend world class  
technical presentations based on rigorously refereed submissions live without the need for investing significant travel funds  
or time out of the office Suffice to say that CISSE received submissions from more than 50 countries for whose researchers  
this opportunity presented a much more affordable dynamic and well planned event to attend and submit their work to  
versus a classic on the ground conference The CISSE conference audio room provided superb audio even over low speed  
internet connections the ability to display PowerPoint presentations and cross platform compatibility the conferencing  
software runs on Windows Mac and any other operating system that supports Java In addition the conferencing system  
allowed for an unlimited number of participants which in turn granted CISSE the opportunity to allow all participants to  
attend all presentations as opposed to limiting the number of available seats for each session The implemented conferencing  
technology starting with the submission review system and ending with the online conferencing capability allowed CISSE to  
conduct a very high quality fulfilling event for all participants See [www.cissee2005.org](http://www.cissee2005.org) sections IETA TENE EIAE      **The**
