

Using Language

WJ Hussar

Using Language:

Using Language Herbert H. Clark, 1996-05-16 This book first published in 1996 argues that language use is more than the sum of a speaker speaking and a listener listening It is the joint action that emerges when speakers and listeners writers and readers perform their individual actions in coordination as ensembles The author argues strongly that language use embodies both individual and social processes

Using Language John T. Kearns, 1985-06-30 In a pioneer study of how language is actually used Dr Kearns combines the rigor of formal logic with a detailed analysis of natural language patterns Through this double focus he develops artificial languages that are syntactically more similar to the spoken word than first order language itself Numerous diagrams illustrate the evolution of these artificial languages which represent a significant contribution to both the fields of linguistics and logic The book begins by delineating a theory of the structures of intentional acts and then applies this to the special case of linguistic acts Given an understanding of the meanings of component expressions we can use our knowledge of linguistic structure to determine the meaning of a complex expression An innovative discussion of semantics is subdivided into theories of three semantic dimensions representational meaning inferential meaning and truth conditions Drawing upon these analyses the speech act theory of this book purposes that the meaning of a sentence sentential act is to be explained wholly in terms of the meanings of component expressions acts and the structure of the sentence

Using Language Herbert H. Clark, 1996-05-16 This book first published in 1996 argues that language use is more than the sum of a speaker speaking and a listener listening It is the joint action that emerges when speakers and listeners writers and readers perform their individual actions in coordination as ensembles The author argues strongly that language use embodies both individual and social processes

Using Language Herbert H. Clark, 1996-05-16 Herbert Clark argues that language use is more than the sum of a speaker speaking and a listener listening It is the joint action that emerges when speakers and listeners writers and readers perform their individual actions in coordination as ensembles In contrast to work within the cognitive sciences which has seen language use as an individual process and to work within the social sciences which has seen it as a social process the author argues strongly that language use embodies both individual and social processes
