### **Third Planet:**

**Earth-** Michael D. Cole,2001 Describes the third planet from the sun including its orbit The Third Planet J. V. Perrone,2014-05-31 As the author of this novel I prefer not to provide biographic data except to disclose that I currently reside in Florida having moved there in 2004 after working in the financial district of New York City While still a rail commuter from New Jersey my daily morning route included taking the PATH train from Hoboken into the basement of the World Trade Center where especially when the weather was spring like I usually would exit the complex through its central plaza and from there walk the three blocks to my office My timing was such that I was usually in the plaza by 8 45 AM in order to be on time for work Having returned a few days earlier from a tiring vacation I decided that fateful Tuesday morning of September 11 2001 to get a few extra winks of sleep and to take the late train to work As a result I was about thirty minutes later than usual and not where I normally would have been at 8 46 AM when the first plane struck the north tower of the World Trade Center If the events of that day did not change my perspective on life then the following weeks and months of working in the humbling atmosphere of such a terrible disaster did Many questions were asked and not answered Was it by human design alone Was it because of divine punishment In any event in order to mentally escape the reality of an environment in which physical escape was not then possible I found that when I had a private moment to think on the subway the commuter train on a work break etc I did so with pen in hand And what emerged at the time were poems that helped me deal with questions of the soul and resolve the remorse I felt which was later replaced with a sense of hope Although I always had what I thought to be a talent for writing through which I could express thoughts and feelings in a way I never could do verbally I had never written anything of consequence before that disastrous day in 2001 And yet looking back it seemed that whatever pen I subsequently used in writing those poems which eventually turned out to be many must have had a magical connection because the words came only after first picking up the pen Many times the words came quickly without my having to think as if I was simply transcribing what was being dictated It was the same with this novel I never planned to write a novel and most certainly do not consider myself an author But one day a thought came into my head causing me to pick up a pen and on a simple notepad I began to write the first chapter of this book The characters immediately came into being and essentially it is their novel their story At times when the story stagnated causing me to sit at the computer while my fingers remained still it was as if the characters had nothing to say so much so that if a family member who knew of the writing of this novel would ask me at the time how it was coming along my answer would be that the characters weren t talking to me So maybe this isn t a novel at all Maybe it all did happen a long while ago and that through some kind of a time anomaly the people described herein may have telepathically communicated their story to me so that this world that we live in today could have knowledge of what once had been I really don t know what do you think J V Perrone **The Third Planet** Sally Ride,Tam E. O'Shaughnessy,2004 Astronaut Sally Ride examines how the earth is studied from space its critical relationship

with the other planets in the solar system and some of the earth's features including climate orbits atmosphere and light

Dimensions Whit Haney,2022-04-11 Michael Townsend just wants to study the mammalian genome but incidentally becomes a pawn in an alien game of strategy During his research Michael gets sick After blood work a rheumatologist confirms that Michael's genetic code is missing molecules It's as if something spliced his DNA at the same point in every cell leaving Michael to waste away Except Michael doesn't waste away A last ditch treatment effort turns him into something else entirely He becomes the Knight Bear a man turned into a wild beast He soon learns of aliens from another dimension formed from quarks random subatomic particles also calling themselves quarks It was the quarks that tried to eliminate Michael but he is anything but dead Now Earth is under attack from an evil alien warlord These aliens scheme to use humans as laboratory rats experimenting to see if others can survive like Michael When humans are captured in the midst of this intergalactic struggle they are taken to the other dimension of quarks and for everyone it is now time to survive or die

**Official Gazette of the United States Patent and Trademark Office** ,2002 **The Ark of IZANNA** Eugene R. Grace,2011-03-07 A million years ago in Mars there was a genius couple who discovered their planet would meet its ultimate demise very soon They concocted with the help of their government a final rocket with a man and woman on board who could bear the rigors of being the first people on a planet that can also support civilization Earth Meanwhile some modern day anthropologists who were commissioned to find evidence to oppose Darwin's Origin of the Species found what they were looking for a scroll providing absolute proof substantiating the long ago existence of life on Mars and their necessity to inhabit the earth **The Heavens** Amédée Guillemin,1883 **Publications** Chaucer Society (London, England),1871
