THEORIES OF SLOPE DEVELOPMENT

Landscape evolution

- **term used to describe the ways that landscapes evolve or change over time**
- **arose from the realization that the Earth has a history and that the landforms on the Earth's surface evolve over time through the action of weathering and erosion**
- **In the late nineteenth century William Morris Davis proposed a theory of sequential (evolutionary) landscape development**
- **by the 1960s this type of research had been replaced by more detailed studies of processes and small-scale landform evolution**
