The Shamans:

We, the Shamans Chan Atchley, 2005 The Shaman John A. Grim, 1987 Tribal peoples believe that the shaman experiences absorbs and communicates a special mode of power sustaining and healing This book discusses American Indian shamanic traditions particularly those of the Woodland Ojibway in terms drawn from the classical shamanism of Siberian peoples Using a cultural historical method John A Grim describes the spiritual formation of shamans male and female and elucidates the special religious experience that they transmit to their tribes Writing as a historian of religion well acquainted with ethnological materials Grim identifies four patterns in the shamanic experience cosmology tribal sanction ritual reenactment and trance experience Relating those concepts to the Siberian and Ojibway experiences he draws on mythology sociology anthropology and psychology to paint a picture of shamanism that is both particularized and interpretative As religious personalities shamans are important today because of their singular ability to express symbolically the forces that animate the tribal cosmology Often identifying themselves with primordial earth processes shamans develop symbol systems drawn from the archetypal earth images that are vital to their psychic healing technique This particular ability to resonate with the natural world is felt as an important need in our time Those readers who identify with American Indians as they confront modern technological society will value this introduction to our native shamanic traditions and to the religious experience itself The author's discussion of Ojibway practices is the most comprehensive short treatment available written with a fine poetic feeling that reflects the literary expressiveness inherent in American Indian religion and thought The Shaman and the Heresiarch Gopal Sukhu, 2012-09-01 The first book length study in English of the Chinese classic the Li sao Encountering Sorrow Includes translations of the Li sao and the Nine Songs The Li sao also known as Encountering Sorrow attributed to the poet statesman Qu Yuan 4th3rd century BCE is one of the cornerstones of the Chinese poetic tradition It has long been studied as China's first extended allegory in poetic form yet most scholars agree that there is very little in the two thousand year old tradition of commentary on it that convincingly explains its supernatural flights its complex floral imagery or the gender ambiguity of its primary poetic persona The Shaman and the Heresiarch is the first book length study of the Li sao in English offering new translations of both the Li sao and the Nine Songs The book traces the shortcomings of the earliest extant commentary on those texts that of Wang Yi back to the quasi divinatory methods of the highly politicized tradition of Chinese classical hermeneutics in general and the political machinations of a Han dynasty empress dowager in particular It also offers an entirely new interpretation of the Li sao one based not on Qu Yuan hagiography but on what late Warring States period artifacts and texts including recently unearthed texts teach us about the cultural context that produced the poem In that light we see in the Li sao not only a reflection of the era of the great classical Chinese philosophers but also the breakdown of the political religious order of the ancient state of Chu The Chukchee Waldemar Bogoras, 1909 **The Religion of the Kwakiutl Indians: Translations** Franz Boas, 1930 **Jesus and the Shamanic**

Curtis,1926 A comprehensive and permanent record of all the important tribes of the United States and Alaska that still retain to a considerable degree their primitive customs and traditions The value of such a work in great measure will lie in the breadth of its treatment in its wealth of illustration and in the fact that it represents the result of personal study of a people who are rapidly losing the traces of their aboriginal character and who are destined ultimately to become assimilated with the superior race It has been the aim to picture all features of the Indian life and environment types of the young and the old with their habitations industries ceremonies games and everyday customs Though the treatment accorded the Indians by those who lay claim to civilization and Christianity has in many cases been worse than criminal a rehearsal of these wrongs does not properly find a place here General introduction **University of California**
