

## STEP 11

Now all of the yellow corners should be in the correct location but some may need to be flipped to be solved. Turn the UP LAYER to move an unsolved corner into the location highlighted in red on Step 12.

## STEP 12

After moving an unsolved corner to the red location, use the following algorithm until the unsolved corner becomes solved.

It may take more than one execution of the algorithm for the corner to solve and if the cube looks scrambled after the corner is solved don't worry it is normal!

## THE LAST PIECE OF THE PUZZLE!

After the corner is solved, be sure to keep holding the cube from the same position and turn the UP LAYER to move another unsolved corner into the red location and repeat Step 12. After you do this for all unsolved corners, the cube will be solved! Congratulations! Now go show your friends and family your new skill!
