Tragic In Architecture:

The Tragic in Architecture Richard Patterson, 2000 Is modern architecture no longer equipped to deal with the great themes in architecture By focusing on the tragic genre this title asks some of the most far reaching questions about the meaning of contemporary architecture Has a modern delight in functionalism and repression of figuration put paid to the expression of human themes and narrative content When put to the test what has been the approach of contemporary architects who have been called upon to tackle the most abject horrors of our age such as the Holocaust By holding the classical form of the tragic up for scrutiny the texts in this title explore the ways that architects have also been seeking to deal with the incomplete the fragmented and partial the historicisation of nature and the appearance of the popular culture There are substantial essays on the theme by Robert Maxwell John Outram David Hamilton Eddy and Richard Patterson Buildings are also analysed which express some of the great human themes or tragedies in our time These include among others Foster s Berlin Reichstag Libeskind s Jewish Museum and Chipperfield s designs for the San Michele Cemetery in Venice Architects David Chipperfield Peter Eisenman Foster and Partners James Ingo Freed Daniel Libeskind John Outram

Sullivan, 1955 *Soul Says* Helen Vendler, 1995 This work comprises essays on American British and Irish poetry showing contemporary life and culture captured in lyric form It explains the power of poetry as the voice of the soul rather than the socially marked self speaking directly through the stylization of verse *Overheard in Seville* 1983, 1983-10-15 An annual publication *Overheard in Seville* Bulletin of the Santayana Society includes scholarly articles on American philosopher poet critic and best selling novelist George Santayana as well as announcements of publications and meetings pertaining to Santayana scholarship

Greek Theatre in the Fourth Century BC Eric Csapo, Hans Rupprecht Goette, J. Richard Green, Peter Wilson, 2014-06-18 Age old scholarly dogma holds that the death of serious theatre went hand in hand with the death of the city state and that the fourth century BC ushered in an era of theatrical mediocrity offering shallow entertainment to a depoliticised citizenry The traditional view of fourth century culture is encouraged and sustained by the absence of dramatic texts in anything more than fragments Until recently little attention was paid to an enormous array of

non literary evidence attesting not only the sustained vibrancy of theatrical culture but a huge expansion of theatre throughout and even beyond the Greek world Epigraphic historiographic iconographic and archaeological evidence indicates that the fourth century BC was an age of exponential growth in theatre It saw the construction of permanent stone theatres across and beyond the Mediterranean world the addition of theatrical events to existing festivals the creation of entirely new contexts for drama and vast investment both public and private in all areas of what was rapidly becoming a major industry This is the first book to explore all the evidence for fourth century ancient theatre its architecture drama dissemination staging reception politics social impact finance and memorialisation

Another Music John McCormick, 2017-09-08 As the essays in this book attest in a time of specialization John McCormick chose diversification a choice determined by a life spent in many occupations and many countries After his five years in the U S Navy in the Second World War the academy beckoned by way of the G I Bill graduate training and a career in teaching Prosperity in the American university at the time meant setting up as a Wordsworth man a Keats man or a Dr Johnson man all chilling to the author He chose self exile in which he disguised himself as an Americanist saleable in Europe and lectured happily in comparative studies literature history and philosophy Thus the broad range of this volume both in subject matter and in the span of time it covers The essays are divided into three sections First are general and personal essays on a variety of topics followed by work on individual writers and third writings on criticism and theory A section on Santayana reflects his eight years of research for Santayana s biography The writings on Spain and toreo bullfighting result from another long held interest together with the author s attempt to alter some of the romantic nonsense about the running of the bulls in Pamplona too often the entire substance of what the general public knows about Spain McCormick has long been convinced that without knowledge of bullfighting the foreigner cannot comprehend arcane and wonderful aspects of the Spanish character The coda Another Music is an old man s attempt to solve the mysterious algebra of how the world turns now and how the young appear to the aged While the volume is diverse in its range of writers from Whitman in America to Santayana in Europe taken as a collectivity these essays provide a sense of the grandeur as well as the decadent in twentieth century politics and aesthetics alike Written with the literary taste and political non conformity that still characterizes McCormick the volume is a treat for the specialist perhaps and for the generalist certainly
