Tragic Knowledge

Sir Max Beerbohm

Tragic Knowledge:

Nietzsche's Reclamation of Philosophy Kathleen J. Wininger, 1997 Nietzsche is famous for rejecting a great many standard philosophical methods He does this on the basis of critical assessments of these methods Nietzsche's historical critiques are justly famous but the question of what his new philosophy is often not explored The important issue is what Nietzsche believed were some of the possibilities left for philosophy if his criticisms of previous philosophies were correct This book is called the Reclamation of Philosophy because Nietzsche is engaged in a task of reappropriating certain characteristics of past philosophies into his work He reclaims philosophical reflection as practiced by French moralists some Presocratic philosophers and some German thinkers As a mature writer he is no longer interested in philosophy simply as a place to display skill in analytic or logical reasoning He is interested in a philosophy which can address the cultural and personal issues of people constructing themselves in their world He is particularly interested in using philosophical talents to help to discover the values implicit in practices and assumptions which people hold These values are not just moral and aesthetic they are also epistemologically relevant Nietzsche's Reclamation of Philosophy elucidates what Nietzsche has to say about value particularly what he has to say about moral value by looking at his views of aesthetic value *Social Studies--the Next Generation* Avner Segal, Cleo H. Cherryholmes, Elizabeth E. Heilman, 2006 *Social Studies The Next Generation* broadens the imagination within social studies education by highlighting current cutting edge scholarship incorporating critical discourses Drawing on postmodern poststructural postcolonial and feminist theories often borrowed from cultural studies curriculum theory critical geography women's studies and queer studies the scholars contributing to this volume ask new questions about social studies use different methodologies to study the field and report findings with new forms of textualization This book is dialogic and even conversational ending with provocative responses from established social studies scholars and the editors and disturbs the given and the taken for granted in social studies research

What a Philosopher Is Laurence Lampert, 2018-01-26 The trajectory of Friedrich Nietzsche's thought has long presented a difficulty for the study of his philosophy How did the young Nietzsche classicist and ardent advocate of Wagner's cultural renewal become the philosopher of Will to Power and the Eternal Return With this book Laurence Lampert answers that question He does so through his trademark technique of close readings of key works in Nietzsche's journey to philosophy *The Birth of Tragedy* Schopenhauer as Educator Richard Wagner in Bayreuth *Human All Too Human* and *Sanctus Januarius* the final book of the 1882 *Gay Science* Relying partly on how Nietzsche himself characterized his books in his many autobiographical guides to the trajectory of his thought Lampert sets each in the context of Nietzsche's writings as a whole and looks at how they individually treat the question of what a philosopher is Indispensable to his conclusions are the workbooks in which Nietzsche first recorded his advances especially the 1881 workbook which shows him gradually gaining insights into the two foundations of his mature thinking The result is the most complete picture we've had yet of the philosopher's development one that gives us a Promethean Nietzsche gaining knowledge even as he was expanding his thought to create new worlds

Japanese and Western Literature Armando Martins Janeira, 2016-08-09 Japanese and Western Literature delves deeply into Japanese culture to discover the concepts that similarize and differentiate Japanese and Western literary creations Paralleling Japanese literary creations and fundamental thought with those of the West the author draws many illuminating comparisons for example between the novels of Murasaki Shikibu and Marcel Proust between the Portuguese poet Torga and the haiku master Issa and between the picaresque novel in Japan and in the West Contrastive studies are also made into such concepts as time nature love and tragedy This broad yet incisive survey of Japanese literary genres and themes is more than a comparative study of literature however it is an attempt to grasp the core of Japanese culture by setting it against world culture From this born a complex of new ideas and problems and author is able to probe the extent of Western influence on Japanese fiction poetry and essays in the past hundred years

Nietzsche's Anthropic Circle George J. Stack, 2005 Nietzsche's *Anthropic Circle* is an internal analysis and interpretation of Nietzsche's critical uncovering of anthropomorphic truth in language and science as well as his later use of anthropic analogies and transferences in his imaginative perspectival interpretation a hybrid of art and science of a universal immanent will to power in nature Both the relationship of Nietzsche to Kant's analysis of knowledge in the *Critique of Pure Reason* and his absorption of a dynamic theory of nature are explored in some detail A crucial distinction between Nietzsche's perspectival concept of knowledge and perspectival interpretation is thoroughly discussed against the background of recurring analyses of his critique of knowledge and truth It is shown that

instrumental fictionalism was adopted by Nietzsche in order to put in question the pure objectivism of science This links an aspect of his thought to the domain of recent American philosophy of science The anticipatory relationship between Nietzsche s proto structuralist analysis of language and recent linguistic structuralism as well as his affiliation with evolutionary epistemology is explored In the concluding portion of this inquiry it is contended that Nietzsche s psychology of a will to power in human drives thought and behavior is at least theoretically defensible However it must be segregated from the extension of a will to power to the cosmos There is a strong concluding argument offered that seeks to demonstrate that the so called metaphysics of the will to power is an artfully constructed exoteric fable designed to retrieve a sense of the humanization of the world in face of a de anthropomorphic world picture George Stack is Professor Emeritus of Philosophy at the State University College of NewYork at Brockport and the author of several books dealing with the philosophy of Friedrich Nietzsche

Derrida and the Writing of the Body Jones Irwin,2016-04-22 Michel Foucault refers to 1965 1970 as in philosophical terms the five brief impassioned jubilant enigmatic years This book reinterprets Jacques Derrida s work from this period most especially in *L'écriture et la Différence* Writing and Difference and argues that a transformation takes place here which has been marginalized in readings of his work to date Irwin follows with a look at how the grammatical opening becomes crucial for Derrida s work in the 1970s and beyond incorporating one of his last readings of embodiment from 2000 By drawing our attention to the politics of desire and sexuality this groundbreaking book engages with the work of key continental theorists including Artaud Bataille Nietzsche Heidegger Habermas and Cixous whilst also examining Derrida s relationship with Plato and feminist theory It will appeal to a wide range of readers within the social sciences and philosophy particularly those with interests in gender and sexuality social theory continental thought queer studies and literary theory
