## Tramping To Failure:

**Tramping to Failure** Thomas Hall Shastid, 1937      My Second Life Thomas Hall Shastid, 1944      The Skilled Compositor, 1850-1914 Patrick Duffy, 2017-03-02 For the first time since its invention over 500 years ago the print medium is being challenged as the primary means of recording and communicating ideas Indeed within the printing industry itself the advent of digital technology has rendered the craft of hand setting metal type obsolete the days of the skilled compositor are now at an end Patrick Duffy s work sets out to examine the experiences of the skilled compositor in the period 1850 to 1914 Focusing primarily on the workplace and the workplace institutions it aims to explore issues of control co operation and conflict in order to determine if the compositor did as many labour historians claim belong to an aristocracy of labour Drawing on a wide range of source material from trade society minutes to Parliamentary Papers the author explores the diversity of experience that compositors had in the workplace and the uneven patterns of change that the trade experienced The study throws light on some of the issues raised by these changes what part did ancient craft traditions play in the maintenance of control in the workplace Why were women excluded from this particular work when they were accepted in most other parts of the trade To what extent did trade society officials represent the aspirations of the rank and file membership Starting with an overview of the nature growth and development of the trade the book goes on to examine the occupational and social aspects of the compositors experience with a chapter devoted to women s role in the printing trade Finally the formation functions and development of relevant trades unions and employers associations is discussed This insightful analysis of the experience of the skilled compositor provides a valuable case study for labour historians at the same time furthering our understanding of a somewhat neglected aspect of printing history      *Druggists Circular* ,1938

Boyce, 2024-03-25 Winner of the Canadian Nautical Research Society s Keith Matthews Award for Best Book 2024 Celebrated in the novels of Joseph Conrad and vintage films tramp ships the precursor of bulk carriers are not well understood today Yet these vessels transported in bulk essential minerals and ores grains timber and other commodities and played a vital role in creating the modern global economy While the histories of some individual tramp firms have been written this book uses personal correspondence and surviving company records to chart the development of the entire industry the largest in the world during a period of transformational technical change Who were the bold risk takers who founded tramp firms How did they

mobilise the resources needed to enter this dynamic sector build immense companies and accumulate vast fortunes Why did others fail This study reveals how executives learned the art of managing tramps and developed strategic networking skills Tramp shipping resonates with many of today s high growth industries it was an information intensive high stress operation that required rapid sometimes instinctive decision making within a turbulent market Building business networks was supported by a distinctive culture that streamlined communication This innovative study places information knowledge learning culture and communication at the centre of the analysis in order to transport readers into the minds of those fascinating entrepreneurs who helped build the modern world
