Issues. Reader for, 2001 **Earth Issues Reader for Understanding Earth by Frank Press and Raymond Siever, Third Edition and Environmental Geology by Dorothy Merritts, Andrew de Wet, and Kirsten Menking** Kirsten Menking, 2001 Summit of Spiritual Understanding, 1929 Teaching Climate Science in the Elementary Classroom Stephanie Sisk-Hilton, 2023-12-19 Discover new ways to help elementary students engage with and understand the world around them through place based hope filled learning about the causes impacts and responses to climate change This book features foundational climate concepts easily implementable activity plans and inspiring examples of student engagement

Each chapter begins with a short vignette pulled from the author's considerable teaching experience in engaging students in concepts of climate change and climate justice followed by content focused sections and recommendations for student activities and projects. The author provides stories of hope filled action to invite teachers to look for and reflect on similar narratives in their own communities. Sample units of study for grades K-5 show teachers how key ideas from each chapter come together into an instructional plan that incorporates the three dimensions of NGSS and can fit into the broader outline of their school year. This resource is an accessible tool to support any elementary educator in building their own knowledge base and integrating the important and timely issues of climate change into their classroom.
