Undiscovered Mind:

The Undiscovered Mind John Horgan, 1999 *Altered Egos* Todd E. Feinberg, 2002 One of the great unsolved mysteries is how the brain creates the subjective sense of a unified self In *Altered Egos* Feinberg a psychiatrist and neurologist addresses this question by considering how the human brain functions and malfunctions in patients with neurological perturbations of the self He goes on to present a new theory of the self that links the brain with unique characteristics of the mind such as meaning purpose and being He explains why the self and the mind are uniquely personal constituents of the life of the individual
