

### DESIGNING FOR ALL AGES & ABILITIES

Every design must meet the needs of a diverse range of potential bike riders. Across North America, however, many existing bike facility design practices are limited to only the oldest people being and exclude many who might otherwise use them.

**IN AN AGE OF GROWING POPULATION** that has grown significantly and projected to double by 2050, it is essential to design transportation systems that are accessible to all. This includes people of all ages and abilities. The National Association of City Transportation Officials (NACTO) is committed to ensuring that transportation systems are designed to be accessible to all.

### OUR VISION

Cities where safe, sustainable, and equitable transportation systems connect communities to the resources they need to thrive
