Verdict Is In:

Metcalf, Jonathan Cogswell Perkins, 1863 A New Abridgment of the Law Matthew Bacon, 1807 **Justice In-Between**
Federico Picinali, 2022-08-04 Most contemporary criminal justice systems adopt a binary system of verdicts In a binary system there is a single evidential threshold or standard of proof If the standard is met the verdict is guilty the defendant is convicted and punishment is permitted If the standard is not met the verdict is not guilty the defendant is acquitted and punishment is forbidden There is no middle ground between the verdict of not guilty and that of guilty An intermediate verdict represents such middle ground intermediate between acquittal and conviction both in terms of the strength of the incriminating evidence that is needed to warrant the verdict and in terms of the severity of the consequences that the verdict may produce for the defendant Justice In Between is a study of intermediate criminal verdicts and advances a novel justification of such controversial devices with the aim to produce a consensus amongst scholars subscribing to different theories of punishment Indeed the book shows that one cannot investigate the choice of the standard of proof nor importantly that of the verdict system in isolation from the question of the justification for punishing Justice In Between studies historical and extant examples of intermediate criminal verdicts and engages with the debates that have accompanied them including the popular argument that intermediate criminal verdicts are incompatible with the presumption of innocence In doing so the book offers an original account of the meaning and of the justification of the presumption Relying on decision theory Justice In Between makes a case for intermediate criminal verdicts and shows that such decision theoretic case is viable under any of the main theories of punishment **The Texas Criminal Reports** Texas.
