Veritatis Splendor A Response:

Veritatis Splendor, a Response Charles Yeats, 1994 Twelve addresses by Anglicans Roman Catholics and others expressing favourable and unfavourable responses to the papal encyclical Veritatis Splendor With contributions by Peter Baelz Stephen Barton David Brown Alec Graham Ambrose Griffiths Peter Leighton Ann Loades Walter Moberly Alan Smithson Robert Song Alan Suggate and Charles Yeats [The Concept of Intrinsic Evil and Catholic Theological Ethics](#)

Nenad Polgar, Joseph A. Selling, 2019-04-08 One of the most sweeping categorical and absolute phrases that has ever been employed by the hierarchical teaching authority of the Roman Catholic Church refers to a concept called intrinsic evil In short intrinsic evil is invoked to describe certain kinds of human acts that can never be morally justified or permitted regardless of the intention of the person who performs them or any circumstances within which they take place The most common examples of things that people recognize as being classified as intrinsically evil are suicide euthanasia abortion and the use of contraception The ease with which the term intrinsic evil gets right to the point thereby making the fairly complex field of ethical reflection seem manageable and widely accessible is one of the reasons for its attractiveness within Roman Catholic ethical teaching However this kind of simplification risks or even encourages avoidance of critical questions such as Where does this concept come from and what meanings are associated with it Is it supposed to express an ethical judgment or to form it and Is there a substantial difference between intrinsically evil acts and morally wrong acts The contributors to this volume engage with these and similar issues surrounding the formation and use of the concept and in the process dispel the na ve belief that the concept can somehow escape the complexity of ethical discourse or establish certainty of ethical judgments that is otherwise unattainable In light of this realization the most important issue becomes whether the concept can still be useful for Catholic theological ethics Although the contributors to this volume do not completely agree on this issue they have shown that a critical scrutiny of the concept must necessarily precede settling this issue and that the concept might not be able to withstand such critical judgment The book provides a description of the origin and meanings of the concept of intrinsic evil While the term itself tends to create confusion rather than clarity eliminating its use does not imply that we cannot still have a meaningful discussion about things that should never be done

In the World, But Not of the World Andrew L. Fitz-Gibbon, 2000-01-01 In the World But Not of the World explores the threefold tension among Alasdair MacIntyre s prognosis for Western society the desires of some for a social transformation with a Christian moral vision at the sacred centre and a baptist understanding of Christianity as essentially voluntary non sacralist discipleship Andrew Fitz Gibbon uses five contemporary Christian social thinkers from different traditions as conversation partners Through his examination of these thinkers Fitz Gibbon explores how the church may continue to truthfully narrate the Christian story in the midst of the moral tensions of late capitalist Western society His creative conclusion is that the church at the beginning of the twenty first century can move toward a resolution of the central tension of being in the world but not of the world

through a synthesis of the believers church tradition and an affirmation of communitarian liberal democracy The Seductiveness of Virtue John J. Fitzgerald, 2016-12-15 John J Fitzgerald addresses here one of life s enduring questions how to achieve personal fulfillment and more specifically whether we can do so through ethical conduct He focuses on two significant twentieth century theologians Rabbi Abraham Joshua Heschel and Pope John Paul II seeing both as fitting dialogue partners given the former s influence on the Second Vatican Council s deliberations on the Jews and the latter s groundbreaking overtures to the Jews in the wake of his experiences in Poland before and during World War II Fitzgerald demonstrates that Heschel and John Paul II both suggest that doing good generally leads us to growth in various components of personal fulfillment such as happiness meaning in life and freedom from selfish desires There are however some key differences between the two theologians John Paul II emphasizes more strongly the relationship between acting well and attaining eternal life whereas Heschel wrestles more openly with the possibility that religious commitment ultimately involves anxiety and sadness By examining historical and contemporary analyses including the work of the Fourteenth Dalai Lama the philosopher Peter Singer and some present day psychologists Fitzgerald builds a narrative that shows the promise and limits of Heschel s and John Paul II s views **Journal of Moral Theology, Volume 1, Number 1** David M.

Witness to Hope George Weigel, 2009-10-13 This definitive biography of Pope John Paul II explores his historic influence on the world stage Magnificent A tremendous achievement Washington Post As head of the Catholic Church from 1978 until his death in 2005 John Paul II was one of the world s most transformational figures With unprecedented cooperation from the Pope as well as the people who knew and worked with him throughout his life George Weigel offers a groundbreaking portrait of him as a man a thinker and a leader whose religious convictions defined a new approach to world politics and changed the course of history The Pope played a crucial yet underexplored role in some of the most momentous events of his time including the collapse of European communism the quest for peace in the Middle East and the democratic transformation of Latin America With an updated preface this edition of Witness to Hope explains how this man from a far country did all of that and much more and what both his accomplishments and the unfinished business of his pontificate

New Wine, New Wineskins William C. Mattison III, 2005-06-03 The growing shift in Catholic moral theology from reflecting on rules alone to focusing on the identity and formation of persons as moral agents prompts a further question What impact do recent changes in the identity and formation of Catholic moral theologians themselves have on how that discipline is practiced Young Catholic moral theologians experience a sharply different professional formation and a changed location of ongoing professional life than prior generations of moral theologians How do these differences influence the field of moral theology as a whole *New Wine New Wineskins A Next Generation Reflects on Key Issues in Catholic Moral Theology* addresses these questions and more by offering a snapshot of how a new generation of Catholic moral theologians understands not only topics in the field but the effects of their own identity and formation on their treatment of those topics The distinctive contribution of this volume is the interweaving of three key concerns all of which arise out of a critical self reflection on the task of moral theology today the character and adequacy of training and ongoing formation in the field of Catholic moral theology the purpose and nature of teaching Catholic moral theology and the fittingness of methodological debates with regard to the needs of the Christian life Each essay makes a contribution to its specific area of interest ranging from economic ethics to Patristic rhetoric to the nature and development of practical reasoning while probing what exactly young Catholic moral theologians are doing and how they can do what they do better
